

EclerNet manager and related firmware LEGACY VERSIONS

Important Note:

Ecler is continuously developing new software and firmware releases for our products. Each new version does improve performance, solve bugs and/or add new features to the hardware: this is the reason why we encourage our customers and end users to try to upgrade, as much as possible, to the latest versions you can find online, in each product's web page. Otherwise, using the legacy versions you can find here is upon your decision and responsibility, as Ecler can't deliver technical support for them, like we do with the versions in force.

See next pages' table for information about EclerNet Manager version history and their compatibility with DN44BOB, DUO-NET PLAYER, WPNETTOUCH, PAGENETDN, WPmSCREEN, MIMO88, MIMO88SG, MIMO1212SG, MIMO4040CDN, MIMO7272DN, WPNET, NXA, NZA and NPA series firmware versions.
