

# PRODUCT GUIDE AUDIO & VIDEO 2026

## ABOUT US

Since Ecler's birth back in 1965, we have always developed our catalogue trying to listen to you. Today Ecler still keeps this aim untouched. We understand that these days technology, quickly changing, must be a flexible tool to provide global integrated audio solutions, more than just individual products. Looking for a complete audiovisual experience, we expand our product offer introducing Ecler Video Systems to enhance our sound experience.

We keep focusing on innovation and design, both essential. And we spot how they really add value: amazing features combined with a user-friendly and ergonomic approach for the end-user, non-technical end user but indeed the main one.

We realize that today AV integration has become a growing and solid market, frequently encouraging companies towards a global scope, which requests for global audio partners, as we are.

A global green awareness is, happily, growing as well. We are proud of being part of this vital commitment, taking care of the planet with products designed for energy-saving and manufactured with sustainable policies.

Ecler is ready to offer you a quality audiovisual solution for every installation and integration challenge you may face up. That was the goal, and we truly believe it has been achieved.

## OUR VALUES & PHILOSOPHY

### Experience

One thing we have learned over these years is to listen to our partners to provide them with products adapted to their present and future needs in order to continue growing together. We work every day to turn shopping experiences in retail, hospitality, sports, well-being and leisure, into pleasant, unforgettable experiences.

### Quality

At Ecler, we place quality at the center of everything we do. Quality in innovation, quality in product, quality in our customer service. At Ecler we have been always committed with high quality standards which guarantee electrical safety and installations reliability, to keep on improving we use our network of partners who are continually collecting and analysing information ready to implement into future product launches.

### Innovation

Ever since Ecler introduced its SS 8 SON and a wide range of turntable styli in 1965, Ecler's trajectory has always revolved around the world of professional sound, as can be seen in its timeline, with innovation being an essential pillar to provide the audio-visual industry with competitive solutions ahead of their time. SPM amplification technology, EclerNet or recently VersaPower, EclerCLOUD and EclerPLEX are some of these examples.

### Design

Innovation not only in the electronics but also in our product's external appearance with aesthetic contributions from renowned industrial designers such as Ital Design Giugiaro, Luis Eslava (VIDA series) and ECLER's own industrial design team. In this way, we have managed to make our acoustic boxes, absorber panels or remote controls objects that can be integrated into the demanding aesthetic environments of the retail and horeca markets.

### Ergonomics

Also, since our time as renowned mixer manufacturers, the ease, simplicity of use and ergonomics of our products are another of the pillars on which our range is based today. This includes products designed to be configured by professionals and intuitively controlled by non-technical end-users, while maintaining all their exceptional performance for years of use.

# LET US TAKE CARE OF EVERYTHING SO YOU DON'T HAVE TO WORRY ABOUT ANYTHING.

## → Project location

Location is important to understand the project scope and its goals.

## → Project purpose

What do you intend to use your space for? Do you want to get people dancing, or just enjoy some background music?

## → Audio zones

You could have the necessity of playing different music programs and audio contents in different areas of your space.

## → Space dimensions

Knowing the size of your space will give us an idea of placement and number of speakers you need.

## → Project schedule

The project calendar is essential for planning, coordinating, and ensuring that each step is completed on time, securing the overall success.

## → Acoustic

Our projects department provides you with solutions to transform the acoustic environment in your ally.

## → Fixed or mobile installation

Depending on previous elements your installation could be fixed or temporary. Easily change the speaker locations as needed with our wireless solutions.

## → Music style and genre

Sound drives the customer's subconscious when it comes to purchasing decisions, so having the correct tune will assure your customer satisfaction.

## → Aesthetics requirements

Your brand is unique, and we will find the best solution in our catalogue to make it pop.

## MANUFACTURING PROCESS

Reliability is a must, which is why all Ecler products are designed and manufactured to provide a long, robust and reliable service life, even under extreme conditions of usage.

Our defect and failure rate is extremely low. We test 100% of the products manufactured in-house, rather than randomly sampling production as is common in the electronics industry. We are an ISO 9001:2015 certified manufacturing company.

1

### DESIGN

Incorporating creativity, passion & technical knowledge all come together to conceive the product.

5

### ASSEMBLY

Afterwards we assemble the product paying real attention to even the minimum details and checking the finish and the mechanical fit of the whole assembly.

2

### SUPPLIERS

For us, the respect for the ethical codes is a must, not just to forbidden substances harmful to the environment, but also the consideration of how people are treated when choosing suppliers and components.

6

### OPERATING CHECK

All the manufactured products are connected to mains for 24 hours using working cycles to reproduce stressful conditions.

3

### CIRCUIT INSERTIONS

During printed board assembly, we guarantee that all components meet the tolerances defined by our engineering department.

7

### MUSIC

After the operating test, our specialists re-check all audio/video signals to guarantee the product is working correctly.

4

### CIRCUIT TEST

Once the board insertion is complete, ALL circuits are individually inspected in detail, including a vibration test, and then proceed to chassis assembly.

8

### SHIPPING

Now that the product is 100% checked and ready to be shipped globally, we use recycled packaging boxes compliant with ISTA drop test standards.

# SUSTAINABILITY: DAY BY DAY, RESPECTING THE ENVIRONMENT.

Daniel González  
—ESG & Innovation Director

At Ecler we want to create a positive impact on society, with the people who use our products, and also by ensuring that our products are manufactured in accordance with our code of ethics.

The longevity of Ecler products, the use of amplification technologies with higher efficiency than the competition, the incorporation of the auto-switch off system... were already at that time, strong arguments in our sustainability awareness.

ISO 14001 guarantees the commitment assumed with the protection of the environment, through the effective management of its processes associated with the activity carried out. We have a multigenerational team of 6 people.

All our departments are involved and committed to the company's sustainability values. We always look for alternative manufacturing materials to respect the environment. We apply sustainable habits in our daily lives, verify our sustainable vision with suppliers and joining sustainability ecological programmes.

For 60 years now, we have been helping people share music and improve communication across race and borders. Also, as responsible members of the Business Community, we are committed to reducing and if possible, eliminating environmental impact in the creation, manufacture and distribution of our branded products. We must work and act now, to protect the planet for future generations.

# EclerPLEX

At ISE 2026, Ecler highlighted how **software is transforming system integration**. With the growing demand for flexibility, remote management, and scalable architectures, today's installations require more than powerful hardware: they need intelligent ecosystems.

# SOFTWARE AT THE CORE OF MODERN INSTALLATIONS

Best of Show Recognition

ISE 2026 was also marked by industry recognition. EclerPLEX received a Best of Show Award in the AV Technology category, highlighting the innovation and impact of Ecler's modular platform on the professional AV landscape. This award reflects the strength of the entire ecosystem presented and the collaborative effort behind its development.

# WiLD-TX

• Wireless transmitter

Introducing WiLD by Ecler – the long-distance wireless audio solution! This system includes the **WiLD-TX** transmitter, a sleek 4-inch **WiLD-14** receiver loudspeaker, and a powerful **WiLD-SB18** subwoofer. Designed for retail spaces, museums, and other markets, WiLD offers a cost-effective, robust, and user-friendly installation that blends seamlessly into any environment.

Experience superior sound quality with minimal visual impact. **WiLD-TX** is the transmitter device that communicates with all the receiver devices to create a WiLD wireless network.

### KEY FEATURES

- ✓ 2 audio inputs available:
  - Analogue stereo, unbalanced. 2 x RCA connectors.
  - Bluetooth®, class 1 (up to 25 meters range, maximum).
- ✓ 1 x WiLD wireless audio signal transmitted.
- ✓ MUTE port, to allow the system's audio silencing when an external dry contact is closed.
- ✓ REMOTE port, to allow a simple general volume control for the end user using a WPaVOL or a compatible wall panel.
- ✓ Maximum number of receivers under control per transmitter device = 32 units.
- ✓ Front panel 3 band EQ controls and general volume control.
- ✓ Recommended maximum range from a WiLD-TX transmitter to any WiLD paired receiver : 150 mts outdoors with direct line of sight.
- ✓ Rear panel WiLD PAIR button: it allows pairing the receivers to the transmitter quickly and easily.
- ✓ USB-C 5VDC Power Supply.

WiLD-TX	
Inputs	IN1: Unbalanced, Stereo, RCA   BT: Bluetooth wireless
Outputs	RF Channels 1 & 2   AUX OUT: analogue, Mono, Balanced, Euroblock
Audio Channels	1 stereo audio ch transmitted from the WiLD-TX network
Frequency Band	1880 - 1930MHz, EU DECT, US DECT
Dimensions (WxHxD)	217 × 44 × 117 mm / 8.54 × 1.73 × 4.61 in. (WxHxD) 217 × 111 x 117 mm / 8.54 × 4.37 × 4.61 in. (WxHxD) (including antennas)
Weight	0.9 kg / 1.98 lb

### APPLICATIONS

# WiLD-14 / WiLD-SB18

• Wireless receivers

**WiLD-14** is a self-powered 4" lamp style loudspeaker with wireless audio reception under the control of the transmitter, featuring an installation system which is compatible with ceiling light rails.

**TUBESMA** is a surface mount adapter to allow installing a **WiLD-14** unit in locations where there is no available lighting rail.

**WiLD-SB18** is a compact self-powered 8" subwoofer with wireless audio reception under the control of the transmitter.

EASE

### KEY FEATURES WiLD-14

- ✓ Lamp style self-powered WiLD receiver, including 4" woofer and 1" tweeter loudspeaker.
- ✓ Lighting rail mount compatible (Compatible light rails: 4 wire 3 circuit track system such as Global Trac Pro or compatibles).
- ✓ Universal internal power supply, taking mains AC from the lighting rail bracket (100-240VAC 50-60 Hz).
- ✓ 1x WiLD wireless audio signal received, from the transmitter it is paired to.
- ✓ Rear panel WiLD PAIR button that allows pairing the receivers to the transmitter quickly and easily.
- ✓ LED indicator PAIR on the rear panel.
- ✓ Maximum range from a WiLD-TX transmitter to any WiLD paired receiver: 150 metres, with direct line of sight.
- ✓ Available in white (RAL 9003) and black (RAL 9005).

### KEY FEATURES WiLD-SB18

- ✓ Subwoofer self-powered WiLD receiver, including 8" woofer and bass reflex system.
- ✓ Universal, internal power supply (100-240VAC 50-60 Hz).
- ✓ 1x WiLD wireless audio signal received, from the transmitter it is paired to.
- ✓ 1x Line In Analogue stereo unbalanced Signal. 3 pin Euro block.
- ✓ Rear panel controls for:
  - WiLD pair button that allows pairing the receivers to the transmitter quickly and easily.
  - LED indicator.
  - Source (input) selection.
  - Low Pass Filter selection (40, 60, 80, 100, 120, 150, 200, 250 Hz, Full Range).
  - StandBy Selection (20min, 1, 2, 4 Hours, ON Hz - )
  - General volume control.
- ✓ Maximum range from a WiLD-TX transmitter to any WiLD paired receiver: 150 metres, with direct line of sight.

	WiLD-14	WiLD-SB18
Inputs	RF Wireless Audio	RF Wireless Audio
Driver	4" driver + 0,75" tweeter	8" driver
Audio Channels	1 stereo audio ch received from the WiLD-TX network	1 stereo audio ch received from the WiLD-TX network
Frequency Band	1880 - 1930MHz, EU DECT, US DECT	1880 - 1930MHz, EU DECT, US DECT
Dimensions (WxHxD)	128.6 × 205.3 mm / 5.06" × 8.08" (øxD)	450 × 193 × 360 mm / 17.72" × 7.60" × 14.17"
Weight	1.5 kg / 3.3 lb	2,4 kg / 5.29 lb

### APPLICATIONS

# WiSpeak CORE

• Wireless transmitter

Ecler **WiSpeak CORE** is the transmitter device that communicates with all the receiver devices to create a WiSpeak wireless network, and takes the role of the Master Unit. Together with TUBE, CUBE and GLOBE, provides a simple and fast wireless audio installation with up to 500m2 coverage.

### KEY FEATURES

- ✓ 3 audio inputs available:
  - Analogue stereo, unbalanced. 2 x RCA connectors.
  - Analogue stereo, balanced. 2 x Euroblock 3p connectors.
  - Bluetooth®, class 1 (up to 25 meters range, maximum).
- ✓ 1x WiSpeak wireless audio signal transmitted (a mono conversion of the selected input).
- ✓ 1x AUX OUT analogue signal available (a copy of the transmitted WiSpeak signal). It can be used for linking the unit to external audio devices, like amplifiers, mixers or subwoofer units.
- ✓ Maximum number of receivers under control per transmitter device = 24 units. The network can be extended by linking a new transmitter to an existing receiver.
- ✓ Front panel controls for source (input) selection and general (Master) volume control.
- ✓ 12 meters maximum range, open space, for the WiSpeak wireless network (from the transmitter to each receiver, star topology).
- ✓ Front panel PAIR key: it allows pairing the receivers to the transmitter quickly and easily, for a basic set up of the WiSpeak system.
- ✓ External, universal Power Supply (100-240VAC 50-60Hz).
- ✓ Compatible with WiSpeak grip app for set up and control functions (available for Android and iOS), using Bluetooth® connection.

CORE	
Inputs	IN1: Balanced, Stereo, Euroblock   IN2: Unbalanced, Stereo, RCA   BT: Bluetooth wireless
Outputs	RF Channels 1 & 2   AUX OUT: analogue, Mono, Balanced, Euroblock
Audio Channels	WiSpeak CH 1&2
Frequency Band	U-NII 5.1 – 5.8GHz (supported worldwide)
Dimensions (WxHxD)	225 x 120 x 40 mm / 8.9" x 4.7" x 1.6"
Weight	0.8 kg / 1.76 lb

### APPLICATIONS

# WiSpeak TUBE / CUBE

• Wireless receivers

Ecler **WiSpeak TUBE / CUBE** is a self-powered 3"/5" loudspeaker with wireless audio reception and control capabilities under the control of the Master unit.

**TUBESMA** is a surface mount adapter to allow installing a TUBE unit in locations where there is no available lighting rail.

### KEY FEATURES

- ✓ Lighting rail mount compatible (Compatible light rails: 4 wire 3 circuit track system such as Global Trac Pro, Eutrac or compatibles).
- ✓ Universal, internal power supply, taking mains AC from the lighting rail bracket (100-240VAC 50-60Hz).
- ✓ External AC wire included (CUBE).
- ✓ 1x WiSpeak wireless audio signal received, from the transmitter it is paired to.
- ✓ 1x AUX OUT analogue signal available (a copy of the received WiSpeak signal). It can be used for linking the unit to external audio devices, like amplifiers, mixers or subwoofer units.
- ✓ Back panel UNPAIR control and LED indicators.
- ✓ 12 meters maximum range, open space, for the WiSpeak wireless network (from the transmitter to each receiver).
- ✓ Available in white (RAL 9003) and black colour (RAL 9005).

	TUBE	CUBE
Inputs	RF Wireless Audio	RF Wireless Audio
Outputs	3" driver	5" woofer + 1" tweeter
Audio Channels	WiSpeak CH 1&2	WiSpeak CH 1&2
Frequency Band	U-NII 5.1 – 5.8GHz (supported worldwide)	U-NII 5.1 – 5.8GHz (supported worldwide)
Dimensions (WxHxD)	96 mm x 110 mm / ø3.8"x4.3"	173 x 180 x 185mm / 6.81" x 7.08" x 7.28"
Weight	0.8 kg / 1.76 lb	2,4 kg / 5.29 lb

### APPLICATIONS

# WiSpeak GLOBE

• Wireless receivers

WiSpeak **GLOBE** is a 2-way self-powered sphere loudspeaker with wireless audio reception and control capabilities under the control of the Master unit. It includes a 5" woofer and a 1" silk dome tweeter. 360° horizontal dispersion. Available in two versions - with light-rail compatible installation system (RM) and pendant installation system (PD).

EASE

### KEY FEATURES

- ✓ 32W RMS power rating.
- ✓ Dispersion 360° x 160° (HxV).
- ✓ Glass fibre reinforced ABS.
- ✓ RM version lighting rail mount compatible (Compatible light rails: 4 wire 3 circuit track system such as Global Track Pro, Eutrac or compatibles).
- ✓ PD version with 2 x 5m steel cords for pendant installation.
- ✓ PD version with Euroblock power supply connection.
- ✓ RM version with universal, internal power supply, taking mains AC from the lighting rail bracket (100-240VAC 50-60Hz).
- ✓ 1x WiSpeak wireless audio signal received, from the transmitter it is paired to.
- ✓ Front panel UNPAIR control and LED indicators.
- ✓ 12 meters maximum range, open space, for the WiSpeak wireless network (from the transmitter to each receiver).
- ✓ Available in white (RAL 9003) and black colour (RAL 9005)

GLOBE	
Inputs	RF Wireless Audio
Outputs	5" woofer + 1" silk dome tweeter
Audio Channels	1 mono audio channel
Frequency Band	U-NII 5.1 - 5.8GHz (supported worldwide)
Dimensions (WxHxD)	Ø 287 mm x 331 mm(H) / Ø11.3 in. x 13 in. (H)
Weight	2.2 Kg / 4.85 lbs

### APPLICATIONS

# WiSpeak grip

• Android / iOS Application

WiSpeak **grip** is an Android/iOS app for the setup and control of a WiSpeak Wireless Audio System. A WiSpeak system is made up of one transmitter device (CORE model) and from 1 up to a maximum of 24 receiver units (TUBE, CUBE or GLOBE models).

### KEY FEATURES

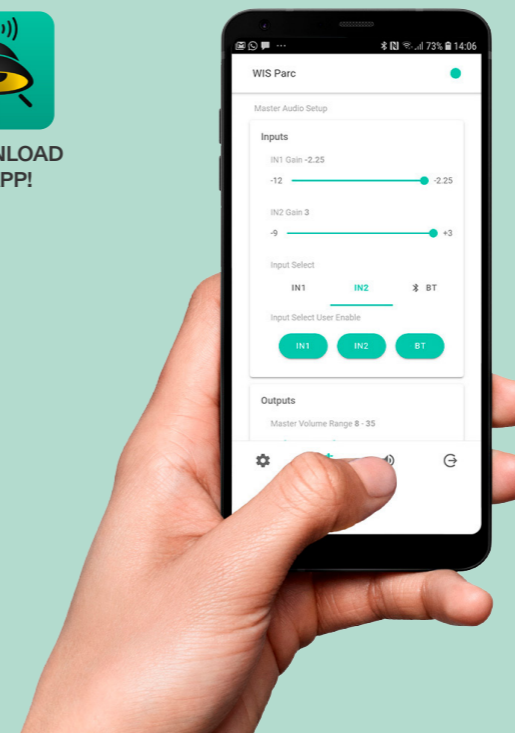

WiSpeak grip admits two different user profiles:

✓ Administrator: allows to connect via bluetooth to the transmitter devices in the installation and, from them, automatically discover and pair the available receiver devices (loudspeakers), thus creating a WiSpeak wireless audio network. It allows as well to monitor each and every transmitter and receiver device in the network, to adjust every connection and audio parameter (emission channels, HPF and LPF filter, EQ, Master and individual volumes, etc.) and to define the privileges that the end user will have for the daily use management of the system.

✓ End user: it shows a very simple control interface of the system (just one screen) including volume control and source selection, both limited to the options previously defined by the Admin user as available for the End user.

DOWNLOAD OUR APP!

# eMHH1 / eMCN2 / eMBASE

• Microphones

**eMHH1** is an affordable handheld dynamic microphone, with a robust design that makes it ideal for voice applications. It comes with a microphone stand adapter and 6 metres XLR-Jack cable.

**eMCN2** is a condenser gooseneck microphone, with a perfect profile for message, speech and conferencing applications. Total length = 55 cm. It includes anti-pop wind-screen cover.

**eMBASE** is a desktop connection base for the eMCN1 and eMCN2 microphones, as well as for other microphones with standard XLR connector. It includes ON / OFF switch that enables / disables the microphone signal.

# DUO-NET PLAYER

• Dual audio player

COMPATIBLE

**DUO-NET PLAYER** is a double audio sound source that features full EclerNet compatibility.

KEY FEATURES

- ✓ 2 independent media players, each one linked to a dedicated stereo output.
- ✓ UCP (User Control Panels) remote control system, compatible with WPNETTOUCH, PULSO and third-party client devices (iOS®, Windows® and Android®).
- ✓ Compatible with mp3, ogg, AAC, WAV and FLAC audio formats.
- ✓ Compatible with TP-NET integration protocol via RS-232 and Ethernet interfaces.
- ✓ 2 audio outputs, balanced line level with Euroblock connector.
- ✓ 4 GPI ports (General Purpose Inputs) to trigger events.
- ✓ SD and USB slots for local storage media contents.
- ✓ Integrated RTC (Real-Time Clock) and NTP (Network Time Protocol) synchronization, for scheduled events triggering.
- ✓ Ethernet interface (RJ45 connector) for EclerNet and TP-NET control, Internet streaming reception and networked media playback.
- ✓ IR remote control for basic end-user control.
- ✓ Fully programmable and controllable via EclerNet software.
- ✓ Priority media (emergency, advertising, etc.) over program audio.

DUO-NET PLAYER	
Audio outputs	2 x stereo balanced, LINE level, Euroblock type
Communication Interfaces	1 x Ethernet (RJ45), 1 x RS-232 (DB9), 4 x GPI (Euroblock)

# eSAS-BT

• Audio player BT

eSAS-BT is a stereo audio source including FM tuner, USB slot, SD slot and BT connection.

### KEY FEATURES

- ✓ Audio player with BT.
- ✓ USB, SD, FM tuner and BT connection.
- ✓ 2xRCA unbalanced output (stereo).
- ✓ 2xXLR balanced output (stereo).
- ✓ Accessories included.

eSAS-BT	
Audio outputs	1 x stereo unbal. + 1 x stereo bal.
Audio inputs	—
Local media	USB, SD, FM tuner, BT connection
Accessories included	IR remote control + FM antenna + 2x RCA cables + rack-mount bracket
Dimensions (WxHxD)	435 x 44 (1RU) x 132 mm / 17.13" x 1.73" x 5.20"
Weight	1,4 kg / 3.09 lb

### APPLICATIONS

# PLAYER ONE

• Local SD/USB and Streaming / Airplay & DLNA player

• Control via RePLAYER mobile app

• Ecler Gallery remote management

• Calendar events trigger

• Cloud Disk Sync

# PLAYER ONE / ZERO

• Streaming and local media audio player

INTEGRABLE

**PLAYER ONE / PLAYER ZERO** is a compact audio player with a stereo output that can play music contents from local storage media (USB/MicroSD card), Internet streams or digital sharing streams (DLNA and Airplay compatible).

### KEY FEATURES

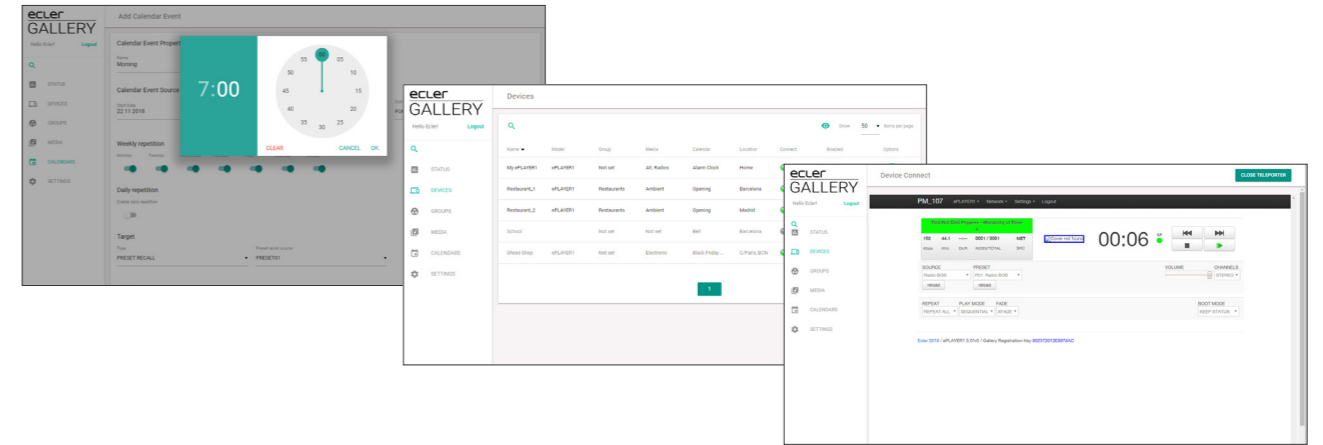

- ✓ Single-deck audio player.
- ✓ Stereo output, RCA connectors and mini-jack.
- ✓ Internet streaming receiver.
- ✓ Digital sharing streams receiver (DLNA and Airplay).
- ✓ Local media player (from USB and MicroSD card slots).
- ✓ Front panel LCD display and local controls (PLAYER ONE).
- ✓ Programmable and controllable via front panel, embedded web app and Ecler Gallery.
- ✓ Calendar events trigger, synchronization of contents hosted in the cloud (Cloud Disk Sync) and execution of "scripts" (files of instructions written by the user, Lua language – www.lua.org).
- ✓ Compatible with the JSON protocol.

	PLAYER ONE	PLAYER ZERO
Audio outputs	1 x stereo unbalanced, LINE level, RCA type + minijack	2 x stereo unbalanced, LINE level, RCA type + minijack

Weight	0.8 Kg / 1.76 lb	0.6 Kg / 1.32 lb

# Ecler GALLERY

• Remote Management platform for Ecler players

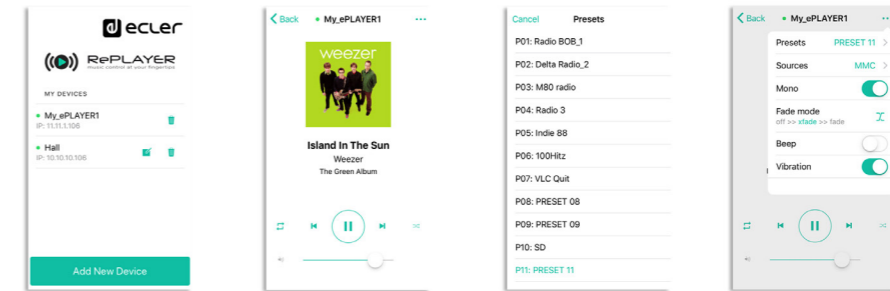

**Ecler GALLERY** features an online platform for Ecler audio player management. Supervise your player's connectivity status, make changes in the reproduction lists and calendars, set up basic or advance configurations, group your devices and much more. Everything could be done remotely. Sign up for Ecler Gallery account at [www.eclergallery.com](http://www.eclergallery.com) and discover all its possibilities. Compatible with ePLAYER1, PLAYER ONE and PLAYER ZERO.

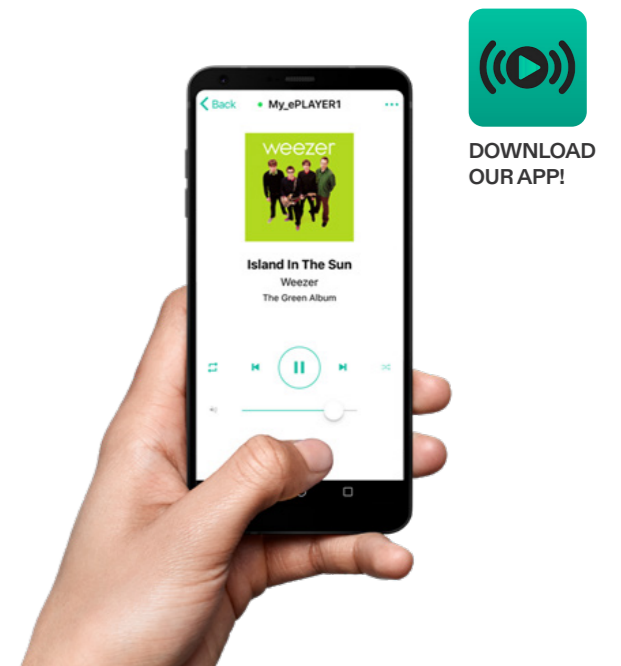

# RePLAYER

• Remote Control Application

**RePLAYER** is an Android/iOS application for remote controlling basic user functions of Ecler ePLAYER1, PLAYER ONE and PLAYER ZERO streaming media players. These basic functions include preset and audio source selection, volume control, playback control (PLAY/PAUSE, NEXT, PREV) and other settings such as repeat mode, mono/stereo or fade mode. All this in a simple to use application, with an intuitive design. Music control at your fingertips.

# SAMI Series

• Installation analogue mixers

SAMI-402  
SAMI-603  
SAMI-612  
SAMI-702BT

### KEY FEATURES

- ✓ 19" Audio Mixers.
- ✓ MIC/LINE ST inputs (SAMI-702BT: additional BT input).
- ✓ SAMI-402 & SAMI-702: 1 main mix output and an additional AUX/REC output.
- ✓ SAMI-402: 1 main ST mix / 2 MONO and a MONO output. Additional AUX/REC output.
- ✓ SAMI-402 & SAMI-702BT: 3-band tone control section.
- ✓ SAMI-603: 2 separate 3-band tone control sections (A/B and C).
- ✓ Assignable Talkover (priority) function for each input over the mix bus.
- ✓ Adjustable microphone sensitivity from the rear panel.
- ✓ 18V Phantom Power available for all microphone inputs.
- ✓ MUTE port for silencing the unit via external contact closure.

### APPLICATIONS

### ACCESSORIES

# eCOMPACT4BT

• Installation analogue mixers

### KEY FEATURES

- ✓ Analogue mixer with 4 channels, 19" rack installation or desktop.
- ✓ 4 mic inputs, one of them with Talkover function. 48V Phantom power.
- ✓ Bluetooth® Class 1 wireless connection (up to 25m range in ideal conditions).
- ✓ Selectable high-pass filter (fc = 100Hz).
- ✓ 3-band tone control (treble, mid and bass).
- ✓ Send to alternative output (ALT OUT) per channel.
- ✓ USB port for charging mobile devices.
- ✓ Rack mount accessory included.

eCOMPACT4BT	
Channels	4 with independent gain & 45mm fader
Inputs	6 ST LINE + 1 ST MINI-JACK + 4 MIC + BLUETOOTH® CONNECTION
Outputs	2 MAIN ST + 2 ALT ST + 1 SUB + 1 PHONES
Tone control	Bass, mid & treble (per channel)
Dimensions (WxHxD)	440 x 132 (3RU) x 125 mm / 17.32" x 5.19" x 4.92"
Weight	3,0 kg / 6.61 lb

### APPLICATIONS

### ACCESSORIES

# EclerPLEX

EclerPLEX is an advanced AV digital platform designed to integrate its own digital hardware devices and software tools, enabling the deployment of comprehensive systems that include programming, control, and integration with both Ecler and third-party devices.

# XPECT THE XTRA-ORDINARY

## Compatible with all OS

Web application managed through your favourite browser.

## Scalability

The system can be expanded with additional devices to meet the needs of larger projects.

## User-Friendly Design

Intuitive interface with tooltips and self-explanatory menus.

## EclerCLOUD Ready

Allows for remote management and monitoring of the system.

## Advanced DSP

Provides high-quality audio processing capabilities in a user friendly way.

## Global Events

Centralized management of resources and events across the network.

## Integration and Customization

Scripts for integration and customization of system behavior (TBD).

## Mobile Application

Enables control of the system from a mobile device.

## Probe audio at any point

Pre-listening of every channel at any point in the signal chain and allows users to probe audio and reuse it internally.

## Integrated Audio Players

Four independent players with a single MicroSD slot, supporting playlist-based playback and featuring built-in signal generators (sine wave and noise).

The platform features a flexible architecture that supports several types of project profiles (mixing matrix, priority and paging manager...) and also a custom sizing of them (examples: matrix sizes of 8x8, 2x12, 10x24, 32x32... etc.).

It allows users to also customize audio I/O strips in a modular way, using individual audio DSP blocks in a sequential arrangement.

Several projects can be run simultaneously, up to the maximum I/O global and DSP capabilities of the HW Host unit in use. The Host unit is able to use Guest units' resources in its projects through a regular LAN, creating a mesh of EclerPLEX devices.

The platform is designed to be fast, flexible, and powerful, making it suitable for all types of applications.

# VIVO Series

• Host EclerPLEX

VIVO-X8D8  
VIVO-X8  
VIVO-XØD32

VIVO-X8D8

**VIVO** devices are the EclerPLEX digital brains. VIVO can take the role of the host node in an EclerPLEX audio, control and integration project.

**VIVO-X8** is an EclerPLEX compatible host processor with 8x8 analogue audio IN/OUT ports, and 4 GPI control ports. It is scalable up to a 24x24 total audio I/O, thanks to optional BIO-X8 I/O expansion units (up to a maximum of +2 x BIO units can be linked to the host unit).

**VIVO-X8D8** is similar to VIVO-X8 but with added capabilities: 8x8 Dante/AES67 digital audio ports, in addition to the 8x8 analog audio ports, and it includes a total of 8 GPIs and 8 GPOs. It is possible to connect 1 or 2 BIO units.

**VIVO-XØD32** is a host processor compatible with EclerPLEX with 32x32 Dante/AES67 digital audio ports. Unlike the previous models, it does not feature analog audio or GPI/GPO. A maximum of 1 BIO unit can be connected.

### KEY FEATURES

Integrated EclerPLEX application including:

- ✓ A workspace that includes multiple types of custom-sized projects running simultaneously, events, calendars, presets, and much more.
- ✓ A user control panel editor, manager, and server.
- ✓ Script automation and control system.
- ✓ 4 internal software audio players.
- ✓ 2 internal audio generators.
- ✓ EclerCLOUD for native device monitoring and control.
- ✓ Automatic update function.

### ACCESSORIES

# BIO-X8G / BIO-X8

• EclerPLEX expansion unit

BIO-X8  
BIO-X8G

BIO-X8G

**BIO** devices are an affordable expansion interface that can easily scale up an VIVO digital matrix through its X-Link ports. The number of X-Link ports determines the maximum number of BIOS that can be connected to a VIVO.

**BIO-X8** is an expansion interface that adds to VIVO default size, 8 input and 8 output analogue audio ports.

**BIO-X8G** is an expansion interface that adds to VIVO default size, 8 input and 8 output analogue audio ports, 8 GPIs and 8 GPOs.

### KEY FEATURES

- ✓ EclerPLEX control and audio input/output expansion unit, compatible with VIVO host units.
- ✓ Expansion functions (added to those of the VIVO host unit):
  - 8 analogue audio input ports MIC / LINE (+48 V Phantom selectable per port).
  - 8 analogue audio output ports LINE.
  - 8 GPI ports. (BIO-X8G)
  - 8 GPO ports. (BIO-X8G)
- ✓ Connection to the VIVO host unit via X-Link (1 m Ecler-certified X-Link cable included).
- ✓ A maximum of 2 BIO-X8G units can be connected to a single VIVO host unit, using its 2 X-Link expansion ports.

	BIO-X8	BIO-X8G

### ACCESSORIES

# EclerNet

10 years of A/V experience innovating to offer you the best platform for creating audio and video systems.

## CREATING AN AUDIO AND VIDEO SYSTEM HAS NEVER BEEN THIS EASY!

• Custom control panels with your own images and logos.

• Remote control from your mobile device.

• Configure an audio, video, and control system.

• Automate operation using events and presets.

• A robust platform with proven reliability.

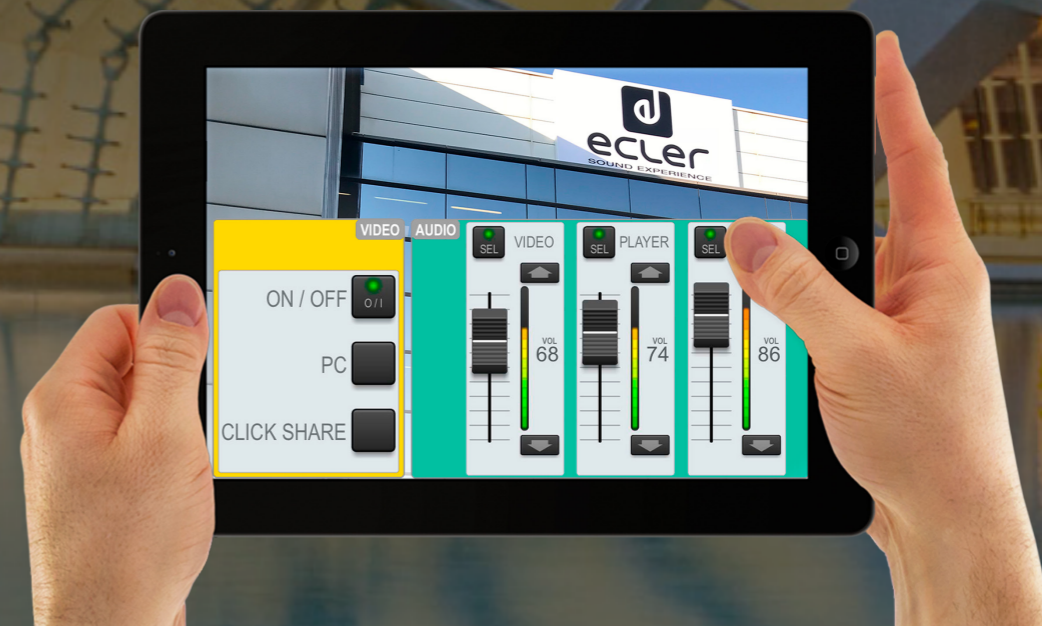

### COMPATIBLE

Device can be identified and configured within an EclerNet project.

### INTEGRABLE

Device can be integrated and controlled within an EclerNet project via IP or RS-232 commands using the ETH232AD accessory.

THIRD PARTY CONTROL DRIVERS

# MIMO7272DN

• Dante digital matrix

**MIMO7272DN** is a digital matrix including a native (full DSP) matrix of 64x64 input and output audio channels total size. Incorporating audio over IP technology, MIMO7272DN allows digital audio transmission using a Local Ethernet network, suppressing cabling distance limitations.

MIMO7272N is also capable of executing EclerNet projects embedded into its processor and electronics engine, acting as a UCP (User Control Panels) server within an EclerNet devices network.

### KEY FEATURES

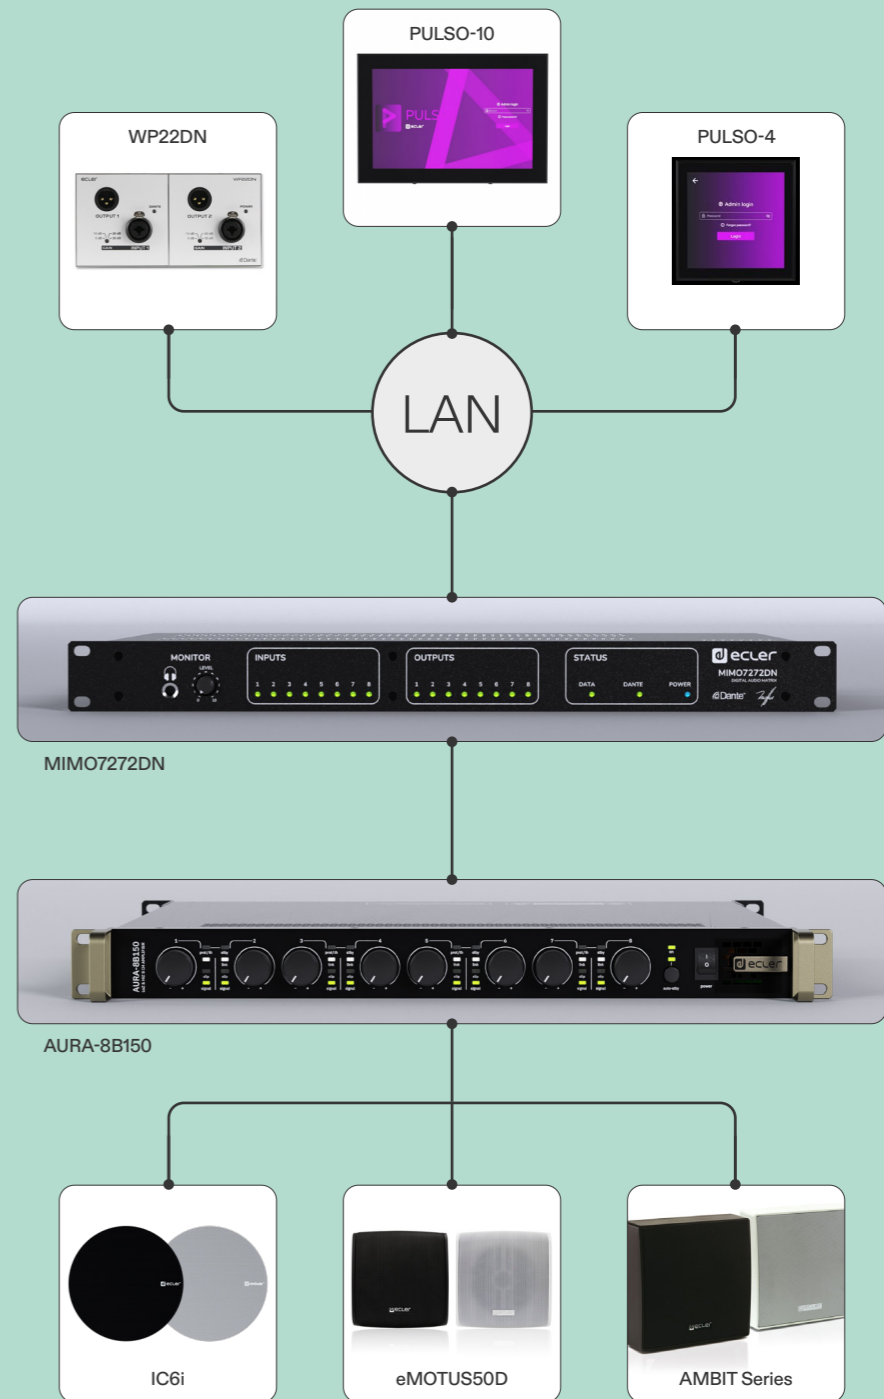

- ✓ 64 x 64 digital audio channels native matrix, with a total of 72x72 audio inputs / outputs support:
  - 8 MIC / LINE analog audio inputs.
  - 8 LINE analog audio outputs.
  - 64 Dante / AES67 input channels.
  - 64 Dante / AES67 output channels.
- ✓ 8 GPI ports.
- ✓ 8 GPO ports.
- ✓ 2 Dante interfaces (primary and secondary), available for configuration of redundant Dante networks.
- ✓ 1 Ethernet programming and control interface (EclerNet, UCP, TP-NET and WPNET series control panels).
- ✓ 1 serial control port, RS-232 (TP-NET).
- ✓ Embedded project manager and server of the project's integrated UCP panels.
- ✓ Connection of all peripherals directly via EtherNet network, and without local wiring (remote controls PULSO, WPNET series, PAGENETDN paging station, WP22DN wall panel Dante/ AES67 interface, etc.).
- ✓ Available only with Standard firmware version (no Conference version available)

MIMO7272DN	
Inputs	8 analogue + 64 Dante/AES67 (64 inputs native matrix) (32 flows)
Outputs	8 analogue + 64 Dante/AES67 (64 outputs native matrix) (32 flows)
Communication Interfaces	1 Ethernet + 1 RS232
Remote control	8 GPI + 8 GPO ports/ UCP control system / EclerNet Manager
Dimensions (WxHxD)	482,6 x 44 (1RU) x 266,5mm / 19" x 1.73" x 10.49"
Weight	3,25 kg / 7.16 lb

### APPLICATIONS

### ACCESSORIES

# MIMO4040CDN + AEC

Dante digital matrix

COMPATIBLE

Dante AES67

**MIMO4040CDN** is a digital audio matrix including a native (full DSP) matrix of 40x40 input and output audio channels total size, specially designed for conference rooms. It includes functions such as **AUTOMIXER** or **FEEDBACK KILLER** by default, as well as up to 8 microphone channels with **AEC (Acoustic Echo Canceling)** processing activated by software licenses.

## KEY FEATURES

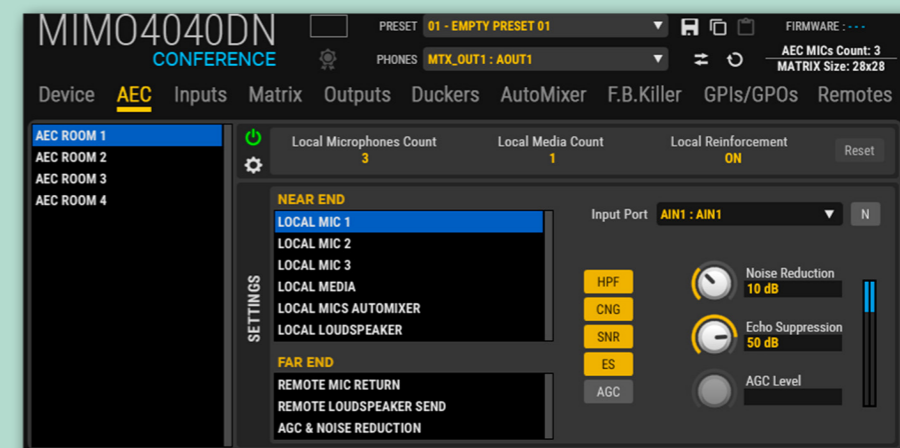

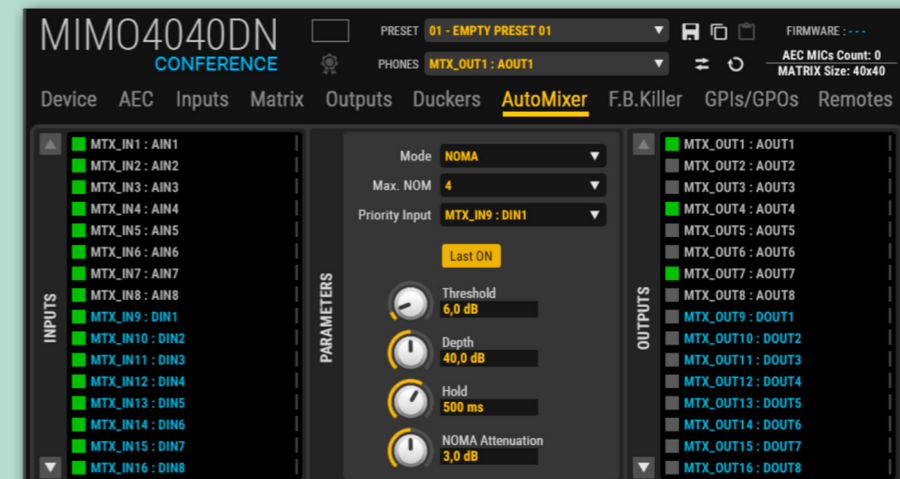

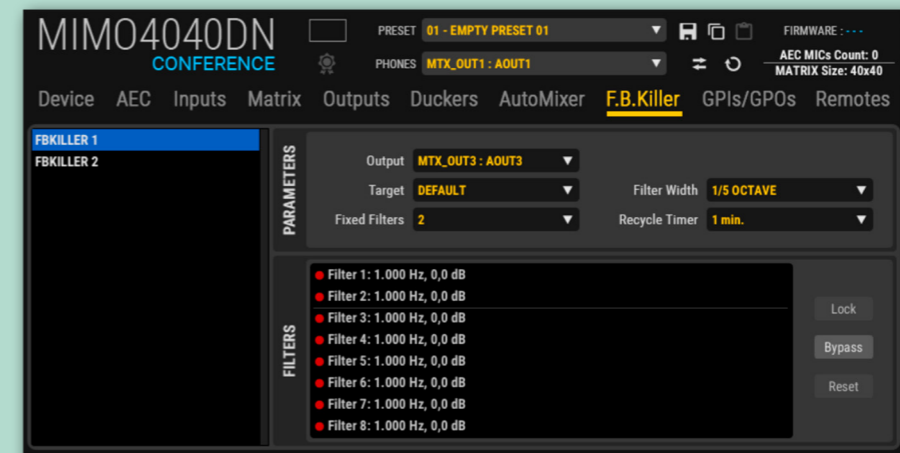

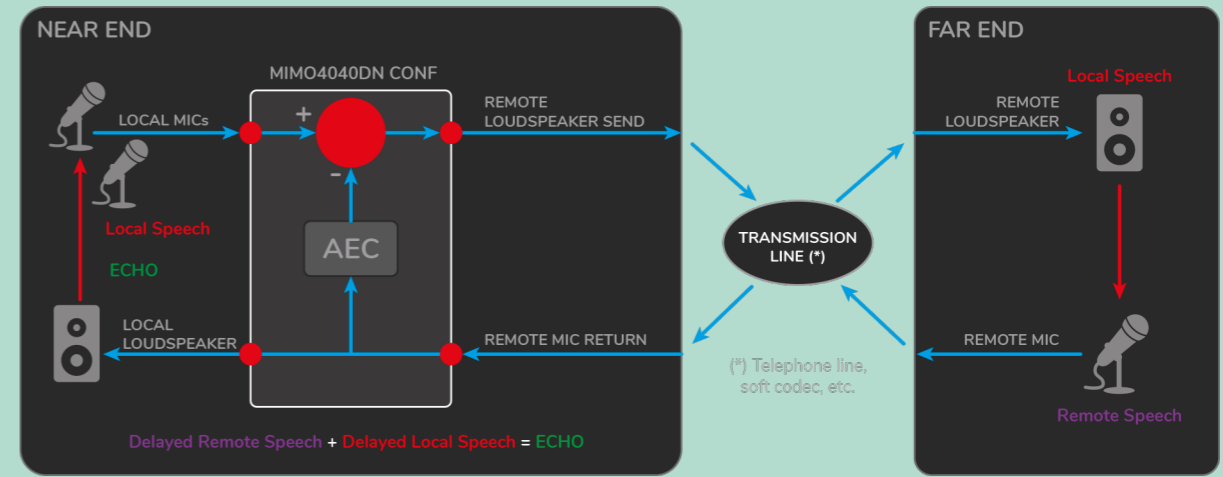

- ✓ 40 × 40 digital audio channels native matrix, with a total of 40x40 audio inputs / outputs support:
  - 8 MIC / LINE analog audio inputs
  - 8 LINE analog audio outputs
  - 32 Dante / AES67 input channels
  - 32 Dante / AES67 output channels
- ✓ 8 GPI ports.
- ✓ 8 GPO ports.
- ✓ 2 Dante interfaces (primary and secondary), available for configuration of redundant Dante networks.
- ✓ 1 Ethernet programming and control interface (EclerNet, UCP, TP-NET and WPNET series control panels).
- ✓ 1 serial control port, RS-232 (TP-NET).
- ✓ Embedded project manager and server of the project's integrated UCP panels.
- ✓ Connection of all peripherals directly via EtherNet network, and without local wiring (remote controls PULSO, WPNET series, WP22DN wall panel Dante AES67 interface, etc.).

MIMO4040CDN	
Inputs	8 analogue + 32 Dante/AES67 (32 flows)
Outputs	8 analogue + 32 Dante/AES67 (32 flows)
Communication Interfaces	1 Ethernet + 1 RS232
Remote control	8 GPI + 8 GPO ports
Dimensions (WxHxD)	482,6 × 44 (1RU) × 266,5 mm / 19" x 1.73" x 10.49"
Weight	3,25 kg / 7.16 lb

## APPLICATIONS

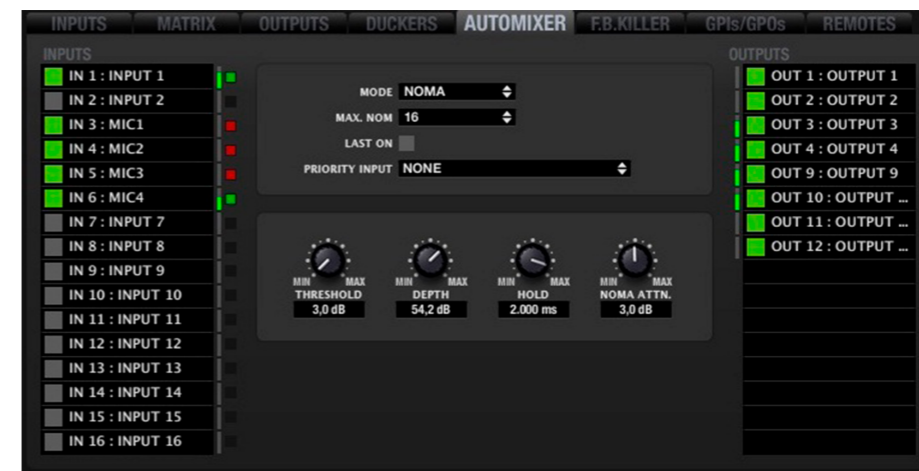

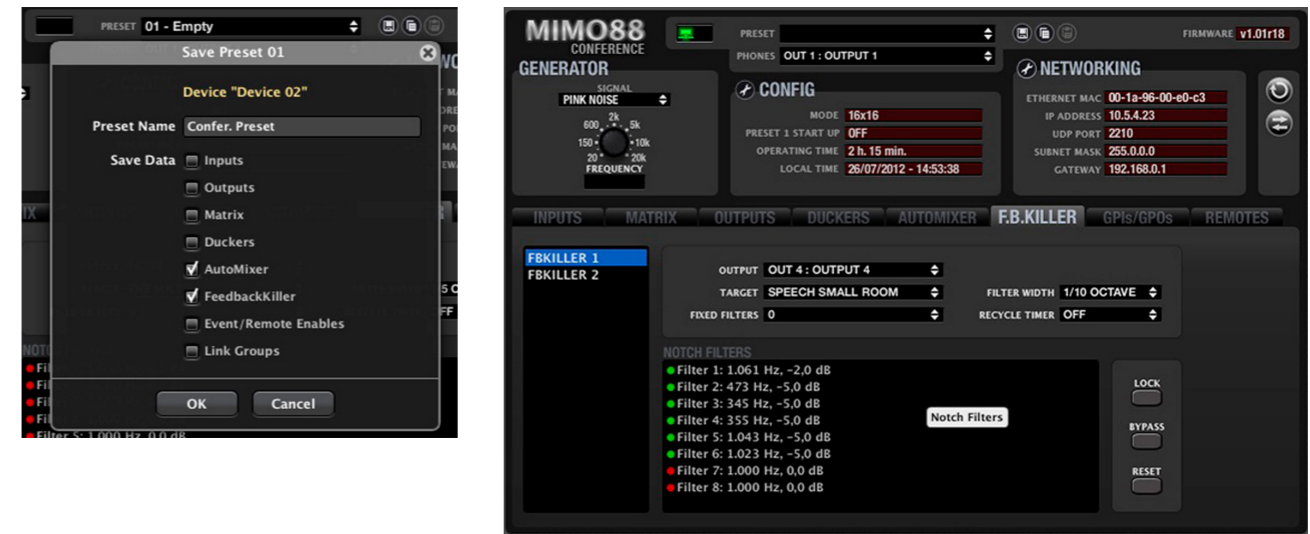

## ACCESSORIES

- KEY FEATURES**
- ✓ Fully programmable and controllable via EclerNet software.
  - ✓ Linkable to a second unit to become a 16x16 matrix (MIMO88).
  - ✓ MIMO88SG: 8x8 digital matrix (not expandable).
  - ✓ MIMO1212SG: 12x12 digital matrix (not expandable).
  - ✓ UCP (User Control Panels) remote control system, compatible with PULSO, WPNETTOUCH and third-party devices, such as computers, tablets, smartphones, etc.
  - ✓ TP-NET protocol compatible, for third-party control systems integration.
  - ✓ DSP processing: signal generator, delays, full parametric EQ filters at inputs and outputs, inputs noise gate, level, mute, phase, vu-meters, outputs compressor / limiter, ducking (priority & overriding), virtual and physical paging stations management, automatic mixer function, presets save & recovery, scheduled events triggering, etc.
  - ✓ FREQUENCY SHIFTER function to avoid acoustic feedback (Larsen Effect), available for each INPUT channel.

	MIMO88	MIMO88SG	MIMO1212SG
Inputs	8 MIC/LINE Bal. (Euroblock)	8 MIC/LINE Bal. (Euroblock)	8 MIC/LINE Bal. (Euroblock)

Weight	3,5 kg / 7.72 lb	3,5 kg / 7.72 lb	3,5 kg / 7.72 lb

**MIMO CONFERENCE** has been especially designed for those applications that involve conferencing, microphone automatic mix processing and feedback loops (Larsen effect) cancellation. MIMO Conference shares the same hardware of the standard MIMO version, including a specific firmware upgrade with tailored DSP resources for automix and conference purposes. Included in EclerNet Manager pack. Compatible with MIMO88, MIMO88SG and MIMO1212SG.

- KEY FEATURES**
- ✓ AUTOMIXER processing module.
  - ✓ Two microphone managing modes:
    - NOMA ("Number of Open Microphones Attenuated").
    - EXCLUSIVE .
  - ✓ Full set of working parameters: MAX. NOMA, LAST ON, PRIORITY, THRESHOLD DEPTH, etc.
  - ✓ 4 working mode presets.
  - ✓ 2 módulos FEEDBACK KILLER para reducir el riesgo de retroalimentación de audio (o efecto Larsen):
    - 2 automatic notch filter banks.
    - 8 notch filters included in each bank.
  - ✓ Fixed / dynamic filters free configuration.
  - ✓ Filter WIDTH, RECYCLE TIMER, LOCK, RESET and BYPASS parameters.

# HUB1408 / HUB1616

• Digital zoner

**HUB1408 / HUB1616** is a digital audio zoner programmable through integrated web server (HANGAR), with multiple control functions. Intuitive and easy to configure thanks to its Predefined Setups.

### KEY FEATURES

- ✓ Programming and control by integrated web server HANGAR and standard web browser (no additional software required).
- ✓ Control from the front panel and user remote control by:
  - PULSO Series
  - eMCONTROL1 wall panels (up to 8).
  - eMPAGE paging consoles (up to 2).
  - Ecler pilot application, compatible with Android and iOS: control graphic panels set to user requirements.
  - TP-NET protocol for control and integrating with third party systems.
- ✓ Control available, by zone (output): selection of audio source (input), volume adjustment and MUTE, and 3 band tone adjustment.
- ✓ Audio over audio priority function with two levels: inputs MIC/LINE attenuate or completely mute the sound content present (programme audio) in specific target zones: emergency messages, warnings, etc., in Talkover mode or Pager.
- ✓ MUTE port can be activated by closing the external dry contact, affecting programmed outputs to this effect.
- ✓ Available DSP: frequency shifter, link stereo, delay, crossover filters, graphic EQ, compressor/limiter and much more.

	HUB1408	HUB1616
Inputs	4 MIC/LINE + 2 ST LINE + 8 Remote Mono LINE	4 MIC/LINE + 4 ST LINE + 8 Remote Mono LINE
Outputs	8 Bal. (Euroblock)	16 Bal. (Euroblock)
Communication Interfaces	1 Ethernet + 1 RS232	1 Ethernet + 1 RS232
Remote control	8 ports (RJ45)	8 ports (RJ45)
Dimensions (WxHxD)	482,6 × 88 (2RU) x 200 mm / 19" x 3.46" x 7.87"	482,6 × 88 (2RU) x 200 mm / 19" x 3.46" x 7.87"
Weight	3,7 kg / 8.16 lb	3,7 kg / 8.16 lb

### ACCESSORIES

# Ecler PILOT

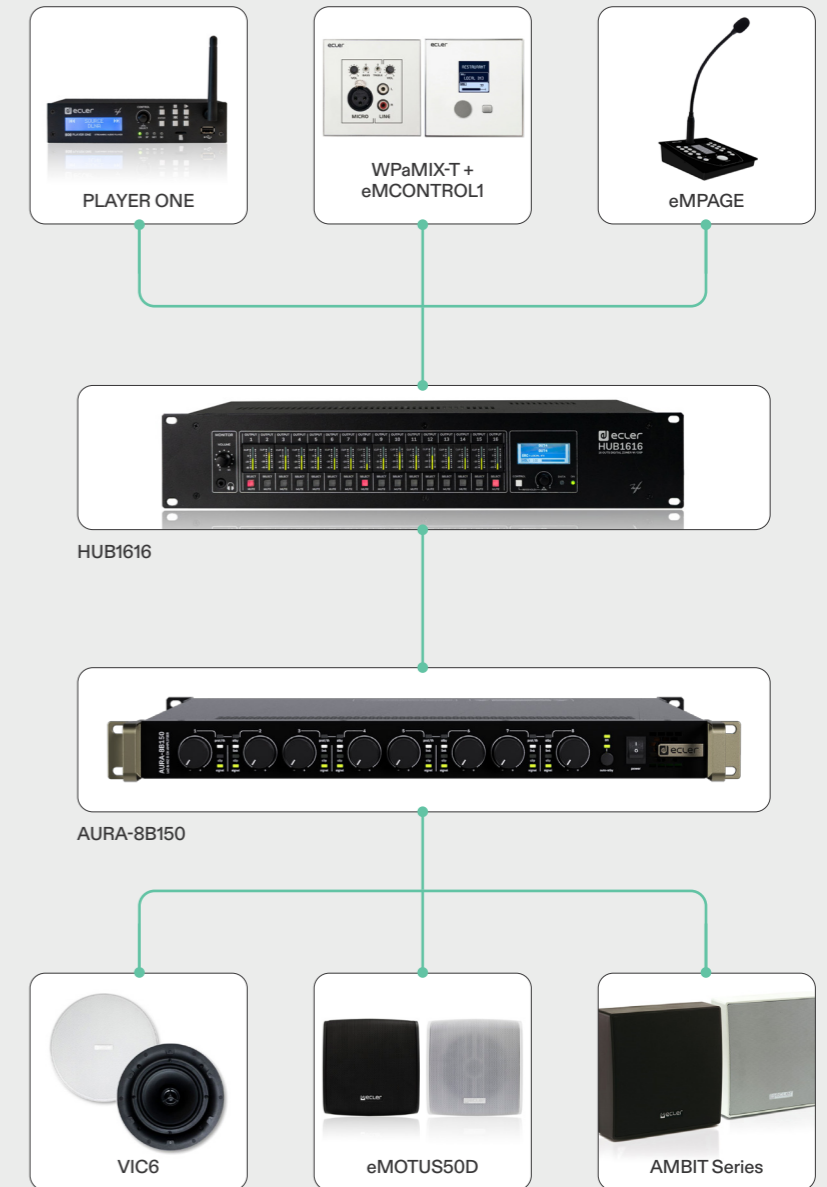

• Android / iOS Application

**Ecler pilot** is an end-user remote control application to manage one or several installation zones. Each end-user grants a customised access via his/her credentials, getting access to a closed list of control panels which have been previously decided by the HUB Administrator. Each control panel can include volume & mute controls and/or audio sources selection keys and/or 3-band tone controls.

## MULTI-USER CONTROL SYSTEM

# DAM614

• Digital mixer

INTEGRABLE

Ecler COMM

**DAM614** is a fully programmable audio digital mixer. It includes 6 audio inputs and 4 audio outputs, front panel inputs and outputs level controls. Its 4 outputs can be used as mono independent zones or coupled as stereo zones. Regarding inputs, the first 2 are stereo LINE inputs, and the 3rd, 4th, 5th and 6th ones are MIC/LINE ready, being possible to use them independently (mono) or as stereo-coupled inputs.

**KEY FEATURES**

- ✓ DSP @ 24 bits / 48kHz.
- ✓ Front panel LCD display.
- ✓ 6 front panel input control digital knobs (one per input).
- ✓ 4 front panel output control digital knobs (one per output).
- ✓ 4 front panel keys, for parameters adjustment and menus navigation.
- ✓ Processing:
  - Independent level control for each input and output.
  - Independent mixer for each output zone.
  - Crossover filters available for each output.
  - Independent 10 band graphic EQ for each output.
  - Independent and adjustable High-pass filter available for MIC/LINE inputs.
  - 2 level priority PAGER / DUCKER function, triggered by MIC/LINE inputs.
  - Independent Noise Gate function for MIC/LINE inputs.
  - Independent Feedback Suppressor Function for MIC/LINE inputs.
  - Adjustable delay time for 2 outputs.

DAM614	
Inputs	2 ST LINE + 4 MIC/LINE
Outputs	4 Bal. (Euroblock)
Communication Interfaces	1 RS232 (EclerCOMM & CA-NET)
Remote control	4 RJ45 ports (0-10VDC) + 1 MUTE
Dimensions (WxHxD)	482,6 × 44 (1RU) x 120 mm / 19" x 1.73" x 4.72"
Weight	2,0 kg / 4.41 lb

**APPLICATIONS**

**ACCESSORIES**

# ALMA 24 / ALMA26

• Digital loudspeaker managers

**ALMA24 / ALMA26** is a digital loudspeaker manager in a 1RU stand-alone processor.

Ecler COMM

**KEY FEATURES ALMA24**

- ✓ 24 bits / 48 kHz DSP processing.
- ✓ USB interface and EclerCOMM Manager compatibility.
- ✓ 2 remote control ports (0-10VDC)
- ✓ DSP processing:
  - GAIN, MUTE, POLARITY, etc., per input or output.
  - 8 parametric EQ filters per input / 8 parametric EQ filters per output.
  - Butterworth, Linkwitz-Riley or Bessel Crossover filters at inputs and outputs (up to 48 dB / oct).
  - Inputs and outputs delay.
  - Peak & RMS compressor / limiter at inputs & outputs, including make-up gain.
  - 2 LINK groups (output channels link).

**KEY FEATURES ALMA26**

- ✓ 24 bits / 48 kHz DSP processing.
- ✓ 2x20 characters front panel LCD display.
- ✓ 4 front panel configuration keys + digital encoder.
- ✓ USB interface and EclerCOMM Manager compatibility.
- ✓ 2 remote control ports (0-10VDC)
- ✓ DSP processing:
  - GAIN, MUTE, POLARITY, etc., per input or output.
  - 4 parametric EQ filters per input / 8 parametric EQ filters per output.
  - Butterworth, Linkwitz-Riley or Bessel Crossover filters at outputs (up to 48 dB / oct).
  - Inputs and outputs delay.
  - Compressor / limiter at outputs, including make-up gain
  - 3 LINK groups (output channels link).

	ALMA24	ALMA26
Inputs	2 XLR	2 XLR
Outputs	4 XLR	6 XLR
Remote control	2 GPI	2 GPI
Front panel control	Yes	Yes

**ACCESSORIES**

# DN44BOB

Dante digital interface

**DN44BOB** is a 4 inputs and 4 outputs DANTE (Audio Over IP) Break Out Box. It allows to convert 4 analogue audio signals into 4 DANTE channels and send them into an Ethernet LAN, as well as to take 4 DANTE channels from the Ethernet network and convert them to analogue audio signals.

### KEY FEATURES

- ✓ Ethernet, interface, Dante audio and EclerNet compatible.
- ✓ 4 MIC/LINE balanced inputs, with Phantom Power and 3 sensitivity levels, Euroblock connector.
- ✓ 4 balanced LINE Outputs, Euroblock connector.
- ✓ 4 GPI ports (0-10VDC).
- ✓ 4 GPO ports, NO / NC.
- ✓ Rack-mount kit included: 1UHRMKIT + PUM3.

DN44BOB	
Inputs	Analogue: 4 MIC/LINE Bal. (Euroblock) / Digital 4 Dante/AES67 (2 flows)
Outputs	Analogue: 4 Bal. (Euroblock) / Digital 4 Dante/AES67 (2 flows)
Communication Interfaces	1 Ethernet (Dante audio & EclerNet)
Remote control	4 GPI + 4 GPO
Dimensions (WxHxD)	241 × 44 (1RU) × 152 mm / 9.48" × 1.73" × 5.98"
Weight	1,1 kg / 2.42 lb

# BOB Series

Dante digital interface

The **BOB series** consists of Audio over IP interfaces that use the Dante/AES67 protocol.

**BOB-04** provides 4 LINE-level audio outputs, converted from 4 Dante/AES67 channels received from the digital Ethernet audio LAN to which the unit is connected.

**BOB-40** allows up to four analogue MIC/LINE signals to be converted into Dante channels and sent directly to the Ethernet network.

**BOB-22** allows the conversion of up to 2 Dante/AES67 channels into 2 analogue LINE-level audio output signals and vice versa, converting 2 analogue MIC/LINE audio input signals into 2 Dante/AES67 channels for transmission over an Ethernet network.

**BOB-44** offers both the conversion of four analogue MIC/LINE signals into Dante channels and the reception of up to four Dante channels from the network, converting them into analogue LINE-level outputs.

### KEY FEATURES

- ✓ Ethernet interface.
- ✓ Euroblock connectors for analogue audio inputs and outputs.
- ✓ PoE (Power over Ethernet) for easy installation with compatible network switches (external AC power supply available as an option).
- ✓ Flexible integration: Use within EclerPLEX or EclerNet Dante/AES67 projects, or as stand-alone interfaces with any audio device featuring analog inputs and/or outputs.
- ✓ Compact format design: The entire BOB Series now shares the same chassis and mounting options, ensuring a consistent look and streamlined installation across all models.
- ✓ Optional EASYFIX rack-mount accessory that allows to mount two half-width RU devices in 1 standard width RU space. In addition, 2 side handles - Left & Right- are included to facilitate easier handling and installation of the device.
- ✓ Frontal support Half rack accessory included.

# EclerCLOUD

Introducing EclerCLOUD, this software platform will give you real remote possibilities of monitoring and controlling from anywhere in the world.

This new platform represents a significant step forward in managing Ecler Solutions, offering a host of features that will benefit both integrators and end-users alike by saving time and guarantying a better service experience. Keep an eye on your customers installation status by monitoring as of today, Ecler VIDA Series and know everything that's related with the functions of their amplifiers, like online and power status, audio signals on their inputs and outputs. Take a Deep Dive to directly adjust or configuring functionalities remotely as if you were using the embedded application on site. EclerCLOUD will also allow grouping devices according to the user requirements and filtering horizontally and vertically making the navigation a lot easier when managing big amounts of Ecler devices.

## Real-time Monitoring Everything in Your Space

Keep an eye on your connected Ecler devices, ensuring optimal performance and proactive issue resolution.

## Customized Options

Tailor EclerCLOUD to your unique needs, creating a personalized experience that maximizes efficiency: groups, tags, smart search.

## Real-Time Alerts

Stay informed with instant notifications of any potential issues, allowing for proactive intervention.

## Enhanced Control through Deep Dive

Gain insights into your AV infrastructure, enabling precise adjustments as if you were there.

## Data-Driven Insights

Leverage powerful analytics to optimize your AV operations and make informed decisions.

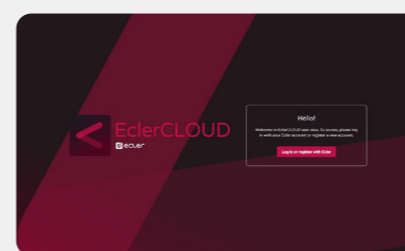

## Remote Access

Manage your AV systems from anywhere, at any time, through a secure and intuitive interface.

## API for NOC System Integrators

The EclerCLOUD API allows software developers to interact with the Ecler platform easily.

VIDA-16Q  
VIDA-24Q  
VIDA-48Q

VIDA-48Q

The awarded **VIDA Series** of Amplifiers exemplifies Ecler's dedication to innovation, superior sound quality, versatility and sustainability. Pioneering VersaPower technology empowers users to effortlessly optimize their sound systems. By distributing all the power to a single output or across multiple channels asymmetrically, users can customize their audio setup to meet the specific requirements of any installation in both high and low impedance lines. They offer a comprehensive range of connectivity and advanced DSP options, ensuring compatibility with various audio sources and systems.

VIDA Series features managing capabilities including Ecler VIDA App to make both users and installers' lives easier, controlling several VIDA devices from the same app at the same time. The VIDA Web GUI Embedded Application available in 7 languages, eliminates the need for additional software installations, saving valuable time. Compatible with EclerCLOUD for remote management and the PULSO digital panel series.

## KEY FEATURES

- ✓ 4 VersaPower amplified outputs with asymmetrical power management.
- ✓ 4 Dante / AES67 outputs and 4 Dante / AES67 inputs.
- ✓ 2 auxiliary outputs.
- ✓ 4 analogue inputs.
- ✓ MicroSD/SDHC audio player.
- ✓ Internal matrix and signal processing.
- ✓ Web application for device configuration.
- ✓ Smart power management VersaPower.
- ✓ Control and scheduled events for automation.
- ✓ Customize user panels.
- ✓ Remote control user application for iOS/Android/Web.
- ✓ Ultra low power consumption mode.

HALO-4B300

HALO-4B300

Ecler HALO is a series of multi-output amplifiers with networked DSP. The line includes 2 and 4-output models, all usable as Low and High Impedance. Bridge between outputs should be used in High impedance or to double the power in Low Impedance. The built-in web interface (similar to VIDA Series) allows easy programming and control of basic

or advanced functions, thanks to different access levels. Flexible end user control through customizable user panels, accessible via web GUI or mobile application. Compatible with EclerCLOUD for remote management and the PULSO digital panel series.

### KEY FEATURES

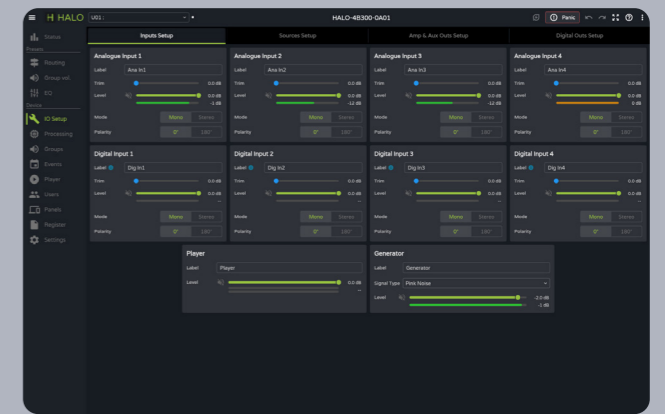

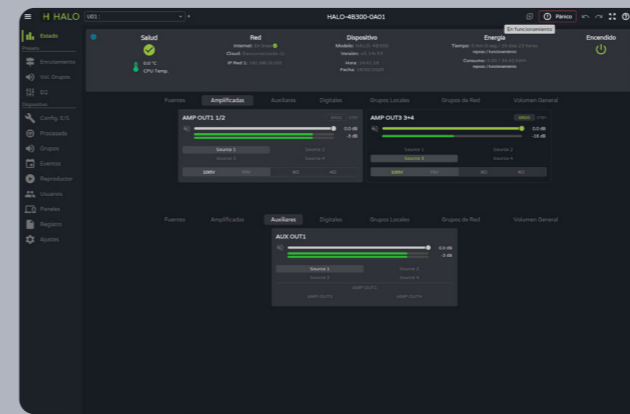

- ✓ 4 amplified outputs.
- ✓ 4 Dante/AES67 outputs and 4 Dante/AES67 inputs.
- ✓ 4 analog inputs.
- ✓ MicroSD/SDHC audio player.
- ✓ Internal matrix and signal processing.
- ✓ Web application for device configuration.
- ✓ Event control and scheduling for automation.
- ✓ Customizable user panels.
- ✓ Remote control user app for iOS/Android/Web.
- ✓ Ultra-low power consumption mode.

**DARA Series** of Amplifiers delivers exceptional audio power and flexibility through high-efficiency Class D technology combined with an advanced DSP and matrix for precise signal management. Designed for professional installations, these

amplifiers support Low and High Impedance configurations by pairs of channels, as well as Bridge mode, ensuring maximum adaptability.

### KEY FEATURES

- ✓ Auto Standby for energy savings.
- ✓ Thermal and overload protection per channel plus an anti-clip system for reliable operation.
- ✓ Safety Euroblock connections for secure wiring.
- ✓ Front panel lock via software for tamper-proof control.
- ✓ Two network ports with integrated switch, enabling daisy-chain connectivity for multiple amplifiers.
- ✓ Full compatibility with PULSO Series and remote control via App (Android & iOS).
- ✓ Ecler Loudspeakers EQ Settings included.

### APPLICATIONS

### ACCESSORIES

# DARA Series

**DARA software** is a complete management suite for DARA digital power amplifiers, delivering fast commissioning, precise audio control, and real-time system insight—all through a clean, webserver based interface. From flexible routing to per-channel DSP and remote control panels, DARA makes professional deployments simpler, safer, and easier to maintain.

### KEY FEATURES

- ✓ 4x4 and 8x8 system configurations for scalable installations (depending on the amplifier model).
- ✓ Advanced routing matrix with intuitive crosspoint control.
- ✓ Per-output DSP chain: HPF/LPF, parametric EQ with curve display, delay, polarity invert, and limiter.
- ✓ Operational modes including Dual, Link, and Bridge.
- ✓ Live monitoring & protection per channel (Clip, Protect, Temp, Load, Open, Standby, Bridge).
- ✓ Network-ready control: DHCP or static IP, DNS/Gateway settings, device Finder for onsite identification.
- ✓ Presets for fast recall of matrix system configurations.
- ✓ Remote control Panels (compatible with PULSO Series) with status overview (users, logout timer, assigned controls, preset recall).
- ✓ User management with panel assignment.
- ✓ Backup & restore via export/import configuration files.

# HADA Series

• Networkable amplifiers

**HADA Series** of Networkable Amplifiers are the perfect choice for multiple types of set ups and a wide range of applications with intuitive control capabilities. This new Series incorporates Class D, Standby Mode, power factor correction and are ready to perform in high or low impedance lines, per couple of channels.

The full family feature 4 outputs and DSP functionalities configured via Ecler HADA DSP Manager including 10 band parametric EQ, multiband compressor, delay, limiter, a 4 by 4 mixer matrix to route the signals and saving or loading presets.

### KEY FEATURES

- ✓ 4 analogue inputs on Euroblock connectors.
- ✓ 4 GPI for remote volume control.
- ✓ 1 External Mute.
- ✓ Internal matrix mixer and signal processing.
- ✓ HADA DSP Manager software for device configuration and control.
- ✓ Thermal, DC, HF and over current protection.
- ✓ Third party control via TCP/IP.

**AURA Series** of amplifiers provides a versatile and efficient solution for professional installations, combining high-efficiency Class D technology with a robust and reliable design. Fully compatible with Low and High Impedance configurations as well as Bridge mode, it ensures maximum flexibility for any project.

## KEY FEATURES

- ✓ Euroblock connectors with anti-pulling locking system.
- ✓ Low (2, 4 and 8Ω) and high impedance (70/100V) compatibility via rear panel switch.
- ✓ Supports dual or bridge mode (@4/8Ω).
- ✓ High efficiency (class D).
- ✓ Link to input 1 available.
- ✓ Auto Standby per channel for energy optimization.
- ✓ The front panel volume control knobs can be locked using the rear panel switches for added security.
- ✓ Fan cooling.
- ✓ Shortcircuit protection
- ✓ Thermal protection.
- ✓ Overload protection.
- ✓ Anti-clip system.

## APPLICATIONS

# eHSA4-60 / HSA2-400ES / GPA2-400ES

Commercial Amplifiers

- KEY FEATURES**
- ✓ High and low impedance amplifier 4x60W RMS.
  - ✓ Euroblock connectors for inputs and outputs.
  - ✓ Input attenuation controls on the front panel for easy access.
  - ✓ Auto standby switchable via selector on the front panel (energy-saving mode when no input signal is present). Independent per channel, with individually selectable threshold (via internal jumper).
  - ✓ Class D amplification, high efficiency.
  - ✓ Linking of adjacent inputs (Input Link selector).
  - ✓ Signal presence indicators (SP), clipping (CLIP), overload protection (PROT), and active standby indicator (STBY).
  - ✓ Built-in, always-active anti-clipping circuit.

- KEY FEATURES**
- ✓ Energy Star® Certification.
  - ✓ 2 mono balanced inputs (XLR and Euroblock terminals).
  - ✓ 2 x 400 W RMS output (4Ω and 70/100V line level).
  - ✓ Euroblock output connectors.
  - ✓ 2 REMOTE volume ports (0-10VDC), compatible with WPa series wall panels.
  - ✓ High efficiency, auto stand-by function and convection cooling (fanless, 100% silent).

- KEY FEATURES**
- ✓ Energy Star® Certification.
  - ✓ 2 analog audio outputs x 2 amplified audio outputs.
  - ✓ Euroblock and Speakon® connectors for the outputs.
  - ✓ 2 REMOTE ports for volume control (0-10VDC) compatible with the WPa wall panel series.
  - ✓ High performance, auto standby function, and convection cooling (fanless and 100% silent).
  - ✓ BRIDGE mode available.
  - ✓ Thermal protection, overload protection, and anti-clip system.
  - ✓ Volume control potentiometers on the front panel with protective caps to prevent tampering.

# eHMA Series

Mixing amplifiers

**eHMA series** is the perfect integral solution for budget and user-friendly professional audio projects.

- KEY FEATURES**
- ✓ Mixer + amplifier.
  - ✓ MIC & MIC/LINE inputs.
  - ✓ High & Low impedance outputs.
  - ✓ Auto-standby function.
  - ✓ Fanless, 100% silent.
  - ✓ Talkover function available.
  - ✓ 2-band tone controls for mix output.
  - ✓ MUTE port.
  - ✓ External power supply included (eHMA60 and eHMA120).
  - ✓ Rack mount kit included.

# eCA Series

• Compact amplifiers

**eCA120 / eCA120Hz** is a stereo micro-amplifier, in a very compact format and a light and silent (fanless) design.

### KEY FEATURES

- ✓ External, universal power supply (CE/UL/CCC).
- ✓ AUTO STANDBY function: in the absence of an audio signal the unit automatically goes into STANDBY mode, minimizing power consumption.
- ✓ Light and silent (fanless) design.
- ✓ 1 unbalanced stereo line input (LINE IN / STACK), with dual RCA connector and 3-pin Euroblock connector.
- ✓ Local volume control by knob.
- ✓ Remote volume control by WPa series wall panel (0-10VDC).

### ACCESSORIES

# CA Series

• Compact amplifiers

**CA40 / CA120 / CA120HZ** is a stereo amplifier with a tiny size but amazing remote control features: serial RS-232 port, IR receiver and 0-10 VDC remote port. It's an ideal solution in those audiovisual applications which require integration with external control devices: education classrooms, meeting rooms, multimedia presentations, retail shops, etc.

### KEY FEATURES

- ✓ Digital local control, encoder type.
- ✓ Infrared remote control included.
- ✓ Remote control compatible with WPaVOL and WPaVOL-SR wall panels (0-10 VDC).
- ✓ RS-232 control port compatible with EclerCOMM software and CA-NET protocol.
- ✓ MUTE port for external muting of the unit when an evacuation system must be activated.
- ✓ Presets / sources management via RS-232 or 0-10 VDC remote control port.
- ✓ AUTO STANDBY function.
- ✓ Light and silent (fanless) design.

# NIMBO Series

• High performance loudspeakers

NIMBO-14

NIMBO-24

NIMBO-26

**NIMBO Series** is a premium performance loudspeaker family featuring outstanding sound quality, with a compact and cloud-inspired design, (result) of Ecler's engineering prowess. The three models available can be personalized to the customer's colour preferences. The whole series includes wall bracket, allowing tilt and swivel adjustment using a single screw.

### KEY FEATURES

- ✓ 2-way passive loudspeaker for surface mounting.
- ✓ Woofers with 4-layer voice coil improves power handling and low frequency response.
- ✓ 1" silk tweeter with neodymium magnet and ferrofluid.
- ✓ ABS reinforced with fiberglass non resonant compact enclosure.
- ✓ Wide dispersion pattern.
- ✓ Stack Output.
- ✓ Wall-mount bracket included. Quick and easy to install, including jumps and markings for repeating speaker orientation.
- ✓ Weather-protected with an IP44 rating.
- ✓ Available in white (RAL9003), black (RAL9005) gold (RAL1036) and titanium (RAL9007 MATT).
- ✓ RAL paint customization available.
- ✓ Ecler Loudspeakers EQ Settings available.

# DROP6i

• Pendant loudspeaker

IP53 EASE

**DROP6i** is a 6.5" 75W @ 8Ω 2-way pendant loudspeaker with a stylish design, featuring a 70/100V line transformer with 60/30/15 and 7.5W power selections, available in high and low impedance levels.

### KEY FEATURES

- ✓ Two-way full-range pendant loudspeaker.
- ✓ 75 W RMS @ 8 Ω.
- ✓ 6.5" woofer / 1" tweeter.
- ✓ Compatible for use in high impedance (70V or 100V line) and low impedance (8Ω).
- ✓ Power selector: 4 options of 60W/30W/15W/7.5W in high impedance or one 75W option in low impedance.
- ✓ ABS reinforced with fibreglass.
- ✓ Paintable grille and speaker (white).
- ✓ INPUT/LINK double connector, Euroblock type.
- ✓ Cable length: 5m (includes 2 height adjustable steel cords).
- ✓ Available in white (RAL9003) and black (RAL9005).

# ARQISi Series

• Architectural wooden cabinets

EASE

**ARQISi series** has been specifically designed to fulfil permanent installation requirements where a perfect balance between sound performance and architectural / interior's design matching is a must. Evolution of the acclaimed ARQIS series, the ARQISi loudspeakers are fine-tuned to balance the sound across the entire range.

### KEY FEATURES

- ✓ Full range, 2-way architectural loudspeaker.
- ✓ Double INPUT/STACK connector, Euroblock (+ Speakon®: ARQIS108i) type, with security attachment screws to avoid accidental disconnection.
- ✓ VEASY Wall bracket included, allowing for pan & tilt adjustment, employing a single screw for fastening. Robust, quick and easy to install, including jumps and markings to adjust and repeat speakers orientation.
- ✓ U-bracket wall-mount accessory compatible, ARQ108UB (not included) (ARQIS108i).
- ✓ Metal safety sling included, to avoid drops in case of accidental detachment from the wall surface.
- ✓ Available in black (RAL 9005) or white (RAL 9003) finish.

# LABI Series

• Compact PA systems

Ecler **LABI Series** has been specially designed to provide a compact loudspeakers system solution for mobile and fixed installations in environments in need of high output, easy and quick installation, and excellent sound quality. The variety of products and accessories allows several different configurations, depending on the needs required.

**KEY FEATURES LABI-SB18**

- ✓ 18" passive subwoofer with a compact design.
- ✓ Frequency range (-10dB): 38Hz - 250Hz.

**KEY FEATURES LABI-SB18p**

- ✓ 18" powered subwoofer with a compact design.
- ✓ 2400W built-in Class D amplification power.
- ✓ Low frequency amplifier: 1200W.
- ✓ Speaker output amplifier: 2x600W@4Ω.
- ✓ 18 factory presets.
- ✓ User control interface with LCD.

**KEY FEATURES LABI-C100i**

- ✓ Full-range passive 100cm loudspeaker column.
- ✓ Twelve 3" drivers with 0.75" neodymium voice coil.
- ✓ 300W AES.
- ✓ Speakon® and 2-pin Euroblock input connectors (+LINK connectors).
- ✓ Several mounting options.
- ✓ Ready for outdoor applications.
- ✓ Black finish available (RAL 9005).

## eMOTUS Series

• Surface mount cabinets

**eMOTUS5P / eMOTUS5PB** is a speaker kit that includes one active and one passive loudspeaker. eMOTUS5PB features a built-in BT wireless receiver, a remote volume control port (0–10VDC), and includes a remote control. eMOTUS5PB is available in white (RAL9003), while eMOTUS5P is available in both white (RAL9003) and black (RAL9005).

**eMOTUS5DN** is the latest addition to the series, an eMOTUS5 model with Dante compatibility.

## KEY FEATURES

- ✓ Stereo 2-way loudspeaker stereo kit – powered loudspeaker + passive loudspeaker.
- ✓ Full range: 5" woofer and 1" tweeter.
- ✓ Integrated amplifier 2 × 25 WRMS (MASTER unit).
- ✓ Volume control and tone control (bass & treble) in the MASTER unit.
- ✓ Mono/Stereo switch.
- ✓ Link between the MASTER and the SLAVE unit via Euroblock connectors.
- ✓ Integrated power supply source (MASTER unit).
- ✓ Selectable power voltage 115 V/230 V (MASTER unit).
- ✓ Auto standby function (automatic standby mode / energy saving without the need to turn the system on or off each day).
- ✓ Integrated Anti-Clip System.
- ✓ LED activity display.
- ✓ Reinforced ABS construction.
- ✓ BT wireless connection, remote control port (0-10 VDC – RJ45 connector) and remote control (eMOTUS5PB).

## APPLICATIONS

# MIA-40

Commercial Loudspeakers

**MIA-40** is an ultra-compact installation loudspeaker, elegantly crafted in aluminium, that redefines discreet audio. Created for near-invisible sound systems, it delivers high-quality audio that blends effortlessly any space. It integrates organically into commercial, hospitality, museum and corporate environments, providing a truly discreet audio solution.

The MIA-40 incorporates four 0.5" transducers, ensuring clear and even reproduction of both speech and background music. The column configuration provides uniform horizontal dispersion and a controlled 40° vertical beam (from 4 kHz to 20 kHz).

Available in white and black, the MIA-40 easily adapts to any design style. It must be combined with the MIA-BR16 for a complete sound experience.

EASE

IP44

## KEY FEATURES

- ✓ Ultra-compact passive loudspeaker for surface mounting.
- ✓ 4 × 0.5" full-range drivers.
- ✓ Extra-wide horizontal coverage: 180°
- ✓ Controlled vertical beamwidth: 40° (4kHz-20kHz)
- ✓ Power handling: 20 W RMS / 80 W Peak.
- ✓ 16 Ω / 100 V line operation.
- ✓ Non-resonant aluminium enclosure.
- ✓ IP44 rated, suitable for protected outdoor use.
- ✓ Mini-Euroblock connector.
- ✓ Complete mounting kit included (screws, template, cable and level).
- ✓ Available in white (RAL9003) and black (RAL9005).

MIA-40

Woofers / tweeter	4 × 0,5" driver
Nominal Impedance	16Ω / 100V
Dimensions (WxHxD)	24,5 × 113 × 14,5 mm / 0,96" × 4,45" × 0,57"
Weight	0,072 kg / 0.16 lb

## APPLICATIONS

# MIA-BR16

Commercial Loudspeakers

**MIA-BR16** is a compact passive low-frequency reinforcement unit, designed as the bass extension for MIA-40 systems, adding depth and warmth without compromising a clean and discreet installation. Its 6" woofer with bass-reflex enclosure delivers a solid and controlled low-frequency response down to 61 Hz. Compatible with both low-impedance

systems and 70 V / 100 V lines, and capable of driving up to four MIA-40 loudspeakers, the MIA-BR16 offers multiple installation options: horizontal placement using discreet feet for positioning under furniture, wall mounting, or vertical installation using dedicated brackets. The unit integrates naturally into any space while maintaining a discreet aesthetic.

## KEY FEATURES

- ✓ Compact passive low-frequency reinforcement.
- ✓ 6" woofer with moisture-resistant treated paper cone.
- ✓ Effective frequency range: 61 Hz – 1.3 kHz.
- ✓ Power handling: 80 W RMS / 320 W Peak.
- ✓ Sensitivity: 91 dB (1W / 1m half-space).
- ✓ 8 Ω / 70 V / 100 V operation with multiple power taps.
- ✓ MDF enclosure with painted aluminium grille.
- ✓ IP44 rated, suitable for indoor and protected outdoor applications.
- ✓ Surface or wall-mount installation options.
- ✓ Rubber feet, wall brackets, drilling template and Euroblock connectors included.
- ✓ Available in black (RAL9005).

Commercial loudspeakers

MIA-81

MIA-82

EASE

IP44

**MIA Series** of column loudspeakers incorporates an elegant, unique and compact design built in a single aluminium piece to reduce components vibrations. The two columns behave as a mini line array with the disposition of 8 drivers per column and the possibility of working in 16Ω or 64Ω by selecting them behind the logo located in the grill.

### KEY FEATURES

- ✓ Column passive loudspeaker for surface mounting.
- ✓ 64Ω or 16 Ω impedance, selectable via the switch behind the logo.
- ✓ Aluminium one-piece non resonant compact enclosure.
- ✓ Available in black and white colours.
- ✓ Stack Output.
- ✓ FLATY bracket allows the column to be mounted against the wall (MIA-81).
- ✓ HANDY wall-mount versatile pan and tilt bracket included (MIA-82).
- ✓ Weather-protected with IP44 rating.

# IG108i / eRK108

• In-ground cabinets

**IG108i** is a ground-standing speaker, water-resistant (IP65), with a 360° omnidirectional horizontal dispersion pattern. It is ideal for outdoor music and paging applications where a high-quality, reliable sound system is required.

**eRK108** is an outdoor speaker designed for ground mounting. Suitable for installation in gardens, theme parks, leisure facilities, etc. It features an 8" woofer and a 0.5" tweeter, with a built-in 100V / 70V line transformer.

### KEY FEATURES IG108i

- ✓ AIP65 outdoor rated loudspeaker.
- ✓ 8 Ω and 70/100 V.
- ✓ 8" Kevlar woofer and 1" ACCW silk dome tweeter.
- ✓ Frequency response (-10 dB): 61 Hz to 20 kHz.
- ✓ Omni directional horizontal coverage pattern (a circular area with an average radius of 4 to 6 meters can be covered by one unit, in a standard application).
- ✓ Security ground bracket included.

### KEY FEATURES eRK108

- ✓ IP65 outdoor rated loudspeaker.
- ✓ 70/100 V (15 W).
- ✓ 8" woofer + 0,5" tweeter.
- ✓ Stripped wire connection.

# NIC Series

In-Ceiling / In-Wall Loudspeakers

**NIC Series** redefines ceiling speaker performance through ART (Acoustic Resonator Technology), validated by laboratory measurements that demonstrate lower distortion and reduced structural vibration.

Developed with installers and system designers in mind, the NIC Series rethinks how ceiling loudspeakers behave both during installation and throughout the system's lifetime.

## KEY FEATURES NIC-3

- ✓ 1-way in-ceiling loudspeaker, 20 WRMS.
- ✓ 3" woofer.
- ✓ ART technology Backcan.
- ✓ Euroblock connector.
- ✓ High impedance built-in transformer, allowing connected three positions: 8 Ω-70V-100V.
- ✓ Bayonet Aluminium frameless front grill easily removable.
- ✓ The Ecler logo is removable.
- ✓ Fast installation procedure using a basic set of tools.
- ✓ Suitable for ceilings and suspended ceilings, with no additional accessories required.
- ✓ Available in white (RAL 9003).

## KEY FEATURES NIC-6 / NIC-6DN / NIC-8 / NIC-SB10

- ✓ 2-way in-ceiling loudspeaker (except NIC-SB10).
- ✓ ART technology Backcan.
- ✓ Euroblock connector accessible from the front panel.
- ✓ 8 Ω nominal impedance.
- ✓ High impedance built-in transformer, allowing for multiple units connected to a 70V / 100V line audio amplifier.
- ✓ Power selection accessible from the front panel, even when the loudspeaker is already installed in the ceiling.
- ✓ IP66 rated.
- ✓ Magnetic frameless front grill easily removable.
- ✓ The Ecler logo is removable.
- ✓ Fast installation procedure using a basic set of tools.
- ✓ Available in white (RAL 9003).
- ✓ Tile bridge included (NIC-SB10)

# PAINTING LOUDSPEAKERS

AVICSG

AVICRG6 / RG8

# YOU CAN PAINT THEM YOURSELF OR WE CAN DO IT FOR YOU!

Our painting service offers the possibility to paint any accessory in the PKIC and VIC series, without a minimum of loudspeakers and with delivery within 15 days.

### AVICSG

Square grille with magnetic mounting. Compatible with all VIC models.

### AVICRG6

2 paintable aluminum round grilles kit, compatible with VIC6 and VIC6X loudspeakers. Magnetic fixing, quick installation. Available in black and white.

### AVICRG8

2 paintable aluminum round grilles kit, compatible with the VIC8, VIC8X, VICSB8 and VICSB8X loudspeakers. Magnetic fixing, quick installation. Available in black and white.

# IC3 / IC6i / IC8i / IW103

In-ceiling / In-wall loudspeakers

**IC3 / IC6i / IC8i** in ceiling/in wall loudspeaker is the perfect option for 70/100 V and low impedance sound solutions. IC series provide excellent sound quality thanks to their infinite baffle philosophy and a top-performance high frequency transducer.

### KEY FEATURES Serie IC

- ✓ ABS speaker.
- ✓ Built-in audio transformer for 70/100 V use.
- ✓ Polypropylene woofer that resists heat and humidity.
- ✓ Front grill may be removed for painting.
- ✓ Aluminium front grill, rust-proof (IC3).
- ✓ Frameless magnetic grille with removable logo (IC6i / IC8i).
- ✓ Clip-type input terminals and low impedance / high impedance power tap selector (IC3: connection strip).
- ✓ Cutting and painting templates included.
- ✓ Support system with 3 rotating tabs.
- ✓ Available in black (RAL9004) and white (RAL9003) finish.

**IW103** is a 3" in-ceiling / in-wall installation loudspeaker featuring a rectangular and discreet design.

### KEY FEATURES IW103

- ✓ Rectangular shaped loudspeaker for in-ceiling/in-wall installation.
- ✓ 3" woofer.
- ✓ 15W/30W @ 100V selector.
- ✓ Spring loaded input terminals.
- ✓ White finish (RAL9003).

### APPLICATIONS

**TRAILSB6T** is a wooden subwoofer reinforcement cabinet with a very compact format. It has been specifically designed to fulfil permanent installation requirements, where low visual impact and integration with decoration are a must: concealed in false ceilings or partition walls, on walls' surface, etc. Installation accessories included.

EASE

#### KEY FEATURES

- ✓ Wooden subwoofer reinforcement for TRAIL103-type cabinets, in-ceiling loudspeakers or small surface-mount cabinets.
- ✓ Concealed in false ceilings or partition walls, on walls' surface, etc.
- ✓ Coupling pipe for false ceiling included.
- ✓ Installation accessories included.
- ✓ Available in black finish.

	TRAILSB6T

# KICK-SB18 / KICK-SB28

Subwoofers

**KICK-SB18 / KICK-SB28** is an outdoor wooden subwoofer with long-term reliability and IP46-rated weather protection. It includes a water-resistant treatment and an 18 mm birch plywood enclosure with polyurea coating. Prepared for wall mounting with the included bracket, or positioned vertically or horizontally if required.

### KEY FEATURES

- ✓ Passive outdoor subwoofer.
- ✓ Weather-resistant with IP46 rating.
- ✓ Rubber feet included for floor installation, either vertical or horizontal.
- ✓ Wall mount bracket included for wall installation.

# PULSO Series

• Digital control & panels

COMPATIBLE

PULSO-4

PULSO-6

PULSO-10

Ecler next generation of digital remote wall panels with an elegant minimalistic design. Featuring aluminum frame and capacitive TFT display, the new **PULSO** wall panels are the perfect choice to load the User Control Panels of VIDA Series, EclerNet, HUB Series and EclerPLEX. They are compatible with the standard UCP panels architecture, and also with third-party UCP clients (iOS®, Android®, Windows®, etc.) and with standard and can manage PoE or external supply for an easier and practical installation.

### KEY FEATURES

- ✓ Capacitive touch screen in 4", 5.5" and 10".
- ✓ Elegant alluminum frame.
- ✓ Standard EU 1-unit electric wall box compatible.
- ✓ UCP client and server for EclerNet.
- ✓ Compatible with EclerNet, HUB, VIDA, HALO, DARA and EclerPLEX.

	PULSO-4	PULSO-6	PULSO-10

Weight	0.15 Kg / 0.33 lb	0.19 Kg / 0.42 lb	0.68 Kg / 1.50 lb

### APPLICATIONS

# WPNETTOUCH

• TFT touchscreen EclerNet control

COMPATIBLE

**WPNETTOUCH** is a remote control TFT touchscreen compatible with all EclerNet products. Incorporates a capacitive 10" touch screen, a server client and UCP server (User Control Panel). Each unit could be configured to work as a single zone control panel or as a global multi-zone controller. It allows executing User Control Panels that are able to control volume, sound source selection, presets recovery, communication via TCP/UDP with external devices, etc.

### KEY FEATURES

- ✓ EclerNet control device, with the ability to execute EclerNet projects on its internal engine, acting as a server and / or client of UCP panels.
- ✓ 10" capacitive touch screen.
- ✓ PoE power or local power supply.
- ✓ Ethernet communication interface.
- ✓ VESA75 and desktop mounting systems included.

	WPNETTOUCH
Display	10.1" IPS Capacitive multitouch
Resolution	1280 x 800 Pixels
Connection port	Ethernet Base-Tx 10/100Mb / 1GB CAT5e or better up to 100m. PoE enabled
Power Supply	12V (local PSU)
Dimensions (WxHxD)	260 x 178 x 28 mm / 10.23" x 7" x 1.10"
Weight	700gr / 1.54 lb

### APPLICATIONS

# WP22DN

• Dante wall interface

**WP22DN** is a Dante interface in a wall panel format. It features 2 audio MIC/LINE Combo connector inputs in its frontal panel and 2 Dante conversion channels either directly or by the sum of channels (stereo to mono conversion). Also, it features 2 analogue outputs with duplicated connectors in XLR format for the front panel and Euroblock on the rear panel, both linked to 2 Dante channels coming from the local network.

#### KEY FEATURES

- ✓ Dante interface wall panel.
- ✓ PoE power or by local power supply.
- ✓ Ecler Double gang surface mount box included.

WP22DN	
Inputs	2 analogue, balanced, MIC/LINE level
Outputs	2 analogue, balanced, line level
Connectors	Dante 2x2 interface (2 flows), RJ45, PoE ready Audio In: 2x Combo / Audio Out: 2x XLR M (external) 2x Euroblock (internal)
Phantom Power	+48VDC, 5mA max.
Dimensions (WxHxD)	170 × 85 × 40mm / 3.38" × 3.38" × 1.57"
Weight	400gr / 0.88 lb

#### APPLICATIONS

# WPNET4KV / WPNET8K

• EclerNet wall panel

**WPNET4KV** is an EclerNet compatible wall panel. It features a LCD screen, encoder and 4 selection keys. Works perfectly to enable volume control, source and preset selection functions.

**WPNET8K** is an EclerNet compatible wall panel. It features a LCD screen and 8 selection keys. Works perfectly to enable presets or source selection functions.

**Note:** in some cases is possible to combine a pair of WPNET4KV+WPNET8K to make them work together as a 12 selection key and a digital volume controller ("WPNET12KV"). This combination is compatible for instance, with MIMO7272DN matrix. For more information consult our tech support service.

#### KEY FEATURES

- ✓ Remote control panel of MIMO4040CDN/MIMO7272DN devices.
- ✓ Compatible with NXA / MIMO88 / 88SG / 1212SG through dedicated firmware.
- ✓ PoE power or by local power supply.
- ✓ Ethernet communication interface.
- ✓ Compatible with wall installation boxes with round shape and internal diameter ≥ 60 mm.
- ✓ Surface mount box included.

	WPNET4KV	WPNET8K
Display	LCD	LCD

#### APPLICATIONS

# PAGENETDN

EclerNet Dante paging station

**PAGENETDN** is a desktop paging console for voice notices with Dante audio over IP which works perfectly to manage huge zoning projects in combination with MIMO7272DN matrices.

### KEY FEATURES

- ✓ Desktop paging station based on touch screen and programmable UCP panels.
- ✓ Flexo type microphone included.
- ✓ Audio transport using Dante.
- ✓ EclerNet control device, with the ability to execute EclerNet projects on its internal engine, acting as a server and / or client of UCP panels.
- ✓ 10" capacitive touch screen.
- ✓ PoE power or by local power supply.
- ✓ Ethernet communication interface.
- ✓ Analog audio output (MIMO88 / 88SG / 1212SG compatible).

PAGENETDN	
Display	10.1" IPS Capacitive multitouch
Resolution	1280 × 800 Pixels
Connection port	Ethernet Base-Tx 10/100Mb / 1GB CAT5e or better up to 100m. PoE enabled

Dimensions (WxHxD) (mic excluded)	295 × 155 × 135 mm / 11.6" × 6.1" × 5.3"
Weight (mic excluded)	1.5 kg / 3.3 lbs

### APPLICATIONS

# MPAGE1r / MPAGE4 / eMPAGE

Paging stations

**MPAGE1r** is a 1-zone desktop paging station, compatible with any device including a phantom-powered microphone input (SAMI series, DAM614, MIMO88, CA series, HMA series, etc.).

**MPAGE4** is a 4-zone desktop paging station compatible with DAM614, CA series, etc. It allows for real-time paging with zones' destination selection.

**eMPAGE** is a digital paging station (MPAGE16's evolution), compatible with HUB, MIMO88, MIMO88SG and MIMO1212SG digital matrixes. Includes: a gooseneck cardioid microphone (removable); 16 zone-selection keys; ALL, CLEAR and PAGE keys; 2 programmable keys, F1 & F2, for zone-group selection. Text labelling for destination areas by means of programmable electronic ink display.

### APPLICATIONS

## eMCONTROL1

• Remote control

**eMCONTROL1** is a digital control panel for the HUB series zoner with a wall format. It also makes it possible, as an option, to be coupled to a WPa type panel with an audio connector: the pair behaves like a single panel providing remote control + direct sending to the HUB from a balanced audio signal. To do so, it uses a single CAT5 type cable or higher. With exceptions, this does not require its own power supply: remote power supply from a REMOTE port on the HUB.

## KEY FEATURES

- ✓ Digital control panel compatible with the HUB.
- ✓ Volume adjustment, selection of sources and (programmable) EQ.
- ✓ Compatible with WPa series panels with audio connector, for sending audio and control signals via a single CAT5 cable or higher.
- ✓ Compatible with wall installation boxes with round shape and internal diameter  $\geq 60$  mm.
- ✓ Aesthetics designed in collaboration with Italdesign Giugiaro.

	eMCONTROL1	eMCONTROL1US
Display	LCD	LCD
Resolution	128 x 128 Pixels	128 x 128 Pixels
Connection port	RJ45 remote port	RJ45 remote port
Control keys	Encoder, SELECTION key	Encoder, SELECTION key

Weight	150 g / 0.33 lb	150 g / 0.33 lb

## APPLICATIONS

## ACCESSORIES

## WPaBT / WPaMIX-T

• Bluetooth® receiver wall panel / Wall panel micro-mixer

**WPaBT** is a Class 1 Bluetooth® receiver with balanced stereo Euroblock output. Surface installation box included.

## KEY FEATURES WPaBT

- ✓ Bluetooth® receiver in WPa wall panel format (standard UE).
- ✓ Bluetooth® class 1 (range 25m), version V5.0. A2DP profile.
- ✓ Balanced stereo Euroblock output dual-mono configurable.
- ✓ PAIR button with blue LED activity indicator. This can be turned off in dark rooms so as not to disturb.
- ✓ Easy device name configuration, PIN, stereo/mono output and other adjustments via the Ecler Bluetooth® Manager application for Windows devices.
- ✓ External 24VDC power supply (WP24-PSU, optional), via terminal strip or via eMCONTROL1 power supply bus.
- ✓ GPO: to indicate that an A2DP audio connection is active (automatic priority management).
- ✓ USB-C configuration port: not visible, behind the front cover. Easily accessed by removing only the front cover; it is not necessary to remove the device from the wall. USB-C cable not included.
- ✓ Compatible with round electrical boxes that are 60mm in diameter.
- ✓ Surface mounting box included Compatible with WPa2FMBOX and WPa2SMBOX mounting boxes.
- ✓ It can be combined with an eMCONTROL1 to work as a remote audio input for HUB Series digital zoner.

**WPaMIX-T** is a 2 channel micro-mixer which keeps the standard wall-panel format of the WPa series. It allows to mix a stereo unbalanced signal (2 x RCA) with a microphone signal (XLR), getting a balanced mono output that can be sent to a preamplifier, amplifier, mixer, digital or analogue matrix, etc., thus saving inputs in the receiver device. The MIC input includes a 2 band EQ (BASS, TREBLE) and it can use the talk-over function to override the line signal when the microphone exceeds the talk-over detection threshold. Power supply not included (WP24-PSU).

## KEY FEATURES WPaMIX-T

- ✓ Unbalanced stereo line input (2xRCA).
- ✓ Balanced MIC input with BASS and TREBLE controls and selectable Phantom power.
- ✓ Independent volume controls for LINE and MIC inputs.
- ✓ Talk-over function available (MIC over LINE).
- ✓ External PSU required. Compatible with WP24-PSU power supply unit.
- ✓ It can be combined with an eMCONTROL1 to work as a remote audio input for HUB Series digital zoner.
- ✓ Surface-mount box included.
- ✓ Available in white colour (RAL 9016).

TOCA-VOL

TOCA-VOL

TOCA-VOLSR

TOCA-VOLSR

TOCA-CXJRCA

TOCA-CXCBO

TOCA-40ATH

TOCA-MIXT

**TOCA-VOL** is a wall-mounted remote control panel for volume management in professional audio systems. It is compatible with all devices featuring a 0–10 VDC control input, providing precise, reliable, and intuitive audio level adjustment.

**TOCA-VOLSR** is a wall-mounted remote control panel that enables volume control and source or preset selection. It is compatible with devices using 0–10 VDC control signals, offering a versatile and elegant solution for local audio system control.

**TOCA-CXJRCA** is a wall-mounted audio interconnection panel featuring a stereo mini-jack connector and two RCA connectors on the front. It includes screw-type connectors on the rear, allowing for fast and secure installation without soldering.

**TOCA-CXCBO** is a wall-mounted audio interconnection panel equipped with a 3-pin female XLR combo connector plus a stereo jack on the front. It incorporates screw-type connectors on the rear, ensuring a simple, reliable, and solder-free installation.

**TOCA-40ATH** is a line attenuator for 70 / 100 V systems, featuring an integrated priority relay activated by a 24 VDC signal. It offers a maximum output power of 40 W and is an ideal solution for zone control in public address and background music installations.

**TOCA-CTRL1** is a digital wall-mounted control panel for HUB series zone managers in wall format. When coupled with a TOCA-type panel with audio connector, the pair behaves as a single panel that provides remote control and direct transmission of a balanced audio signal to the HUB unit using a single CAT5 or higher cable.

**TOCA-MIXT** is a wall-mounted control panel designed for applications requiring simple mixing management and local audio signal control, combining ease of use, elegant design, and seamless integration into professional environments.

## TOCA

REMOTE CONTROL  
WALL PANELS FOR AUDIO  
SYSTEMS

**TOCA Series** is Ecler's new generation of remote control wall panels for audio systems, designed to seamlessly replace the WPa Series from 2026. Featuring a modern, elegant, and discreet aesthetic, TOCA panels offer intuitive control and easy installation, meeting the needs of both installers and end users. Among the main improvements are updated

electronics, compatibility with standard wall boxes, availability in black and white versions, and a high-quality glass surface resistant to fingerprints. TOCA panels are designed to deliver reliability and ease of use, making them the ideal solution for professional audio environments where design, functionality, and installation flexibility are essential.

# WPa Series

Remote controls

**WPa** is a series of remote control wall panels for systems and interconnecting audio signals, with a modern, elegant, discrete aesthetic, designed in collaboration with Italdesign Giugiaro. WPa series includes surface-mount installation box (except UBWPa).

**WPaVOL** is a remote wall panel control for one volume management. Compatible with all 0-10V DC REMOTE control port.

**WPaVOL-J** has the same features as WPa VOL + front panel stereo mini-jack connector.

**WPaVOL-SR** is a remote wall panel control for one volume management + source or preset selection. Compatible with all 0-10V DC REMOTE control port.

**WPaVOL-SR-J** has the same features as WPaVOL-SR + front panel stereo mini-jack connector.

**WPaH-AT40** is a 70 / 100V line attenuator with integrated 24 VDC priority relay. 40W maximum output power.

**WPaH-AT100** is a 70 / 100V line attenuator with integrated 24 VDC priority relay. 100W maximum output power.

# WPa Series

Remote controls

**WPaCNX-CBO** is a connection Wall Plate with Female 3 pin XLR connector + Jack ST (combo connector). Screw-type connector at the back (no solder needed).

**WPaCNX-JRCA** is a connection Wall Plate with 1 x stereo minijack and 2 x RCA connectors.

# PRODUCT ACCESSORIES

**WP24-PSU** is a 24VDC 0.5A external PSU. International AC plugs set. Coaxial connector (+ center), compatible with eMPAGE, DN44BOB, eMCONTROL1, WPaMIX-T and WPaBT.

**ETH232AD** is a serial interface that allows bidirectional transparent transmission between RS-232/422/485 and Ethernet. It includes a setting webpage for Ethernet and Serial customized settings.

**1UHRMKIT** is a kit that enables a half-width and 1U height rack device (PLAYER ONE, etc.) to be mounted into a standard width rack cabinet.

**2UHRMKIT** is a kit that enables a half-width and 2U height rack device to be mounted into a standard width rack cabinet.

**VEO-RACK19** is a universal 19" rack support. Includes velcro and fixing screws.

**EASYFIX** is a rack-mount accessory that allows to mount two half-width RU devices in 1 standard width RU space. In addition, 2 side handles - Left & Right- are included to facilitate easier handling and installation of the device.

**LABI1-SWK** is a wheel kit for LABI1-SB18p subwoofer.

**LABI1-SPC** is a nylon protection cover for LABI1-SB18p subwoofer.

**LABI1-CFC** is a flight case for 2 LABI1-C100i + wiring + mounting accessories.

# AUDIO CABLES & OTHERS

**CNXXLRXLR1/5/10** is a 1m/5m/10m length XLR-XLR cable.

**CNXEBCB1/2M5** is a 1m/2,5m length Euroblock bal.-Euroblock bal. cable.

**CNXEBCA1** is a 1m length 2xEuroblock bal. - 2xRCA Male/female.

**CNXXLRFEB** is a 0,5m length XLR female bal. - Euroblock bal.

**CNXRCAEBAD** is a RCA - Euroblock bal. adapter.

**CNXMJXLR2** is a 2m length minijack ST to mono XLR male. Includes an internal resistance for overload protection and a proper sum of the signals.

**CNXEBCA1** is a 4 Euroblock link cable, 12cm between connectors. It allows to link inputs channels on multichannel amplifiers such as eGPA series.

**CNXAC8RM** is a 19" 8 x sockets power strip with ON/OFF switch.

**MBSTAND** is a microphone stand with boom arm.

**MDSTAND** is a desktop microphone stand.

**WPa2FMBOX** is a double Flush-Mount box, compatible with the WPa wall panel series. It includes a single frame for fitting 2 adjacent panels in a twin housing.

**WPa2SMBOX** is a double Surface-mount box, compatible with the WPa wall panel series. It includes a single frame for fitting 2 adjacent panels in a twin housing.

# LOUDSPEAKERS HARDWARE

**FLATY** is a wall bracket that allows the columns of the MIA series to be installed attached to the wall. It is made of stainless steel and allows the height to be adjusted at any point along the length of the column, as well as allowing 2 columns to be installed side by side on top of each other. Available in black and white.

**HANDY** is a wall bracket compatible with the MIA and NIMBO-14 series. It is incredibly versatile and intelligent with swivel and tilt adjustment, made of stainless steel. Available in black and white.

**NIC-TB6** is a tile bridge compatible with NIC-6 and NIC-6DN in-ceiling loudspeakers.

**NIC-TB8** is a tile bridge compatible with NIC-8 in-ceiling loudspeakers.

**IC-TB6** is a tile bridge compatible with IC6i in-ceiling loudspeakers.

**IC-TB8** is a tile bridge compatible with IC8i in-ceiling loudspeakers.

**ARQ108UB** is a U-bracket wall-mount kit compatible with ARQIS108i. Available in white and black finish.

**ARQ110UB** is a U-bracket wall-mount kit compatible with ARQIS110i. Available in white and black finish.

**ARQ112UB** is a U-bracket wall-mount kit compatible with ARQIS112i. Available in white and black finish.

**AVICCAN6L** is an 6" low-profile back can, compatible with VIC6.

**AVICCAN8L** is an 8" low-profile back can, compatible with VIC8/VIC8SB.

# LOUDSPEAKERS HARDWARE

**SR12** is a mount bracket for ARQIS110i and ARQIS112i loudspeakers.

**GROUNDY** is a bracket that allows you to install eMOTUS series speakers on the floor. Compatible with 3" and 5" eMOTUS loudspeakers and NIMBO-14. Available in black colour.

**CEILY** is a bracket that allows eMOTUS series speakers to be mounted on the ceiling. Compatible with 3" and 5" eMOTUS loudspeakers, NIMBO-14 and NIMBO-24. Available in black and white.

**RAILAPTOR** is an adapter for hanging eMOTUS50D or AUDEO103/106 loudspeakers from a ceiling light rail.

**LABI1-SAC** is a subwoofer-adaptor-column, to install the LABI1-C100i satellite loudspeaker on LABI1-SB18p.

**LABI1-CAC** is a column-adaptor-column, to connect vertically two LABI1-C100i column loudspeakers. Includes 60cm Speakon®-Speakon® cable.

**LABI1-TBC** is a support to install a LABI1-C100i loudspeaker to truss.

**LABI1-WBC** is a LABI1-C100i wall mount bracket.

**LABI1-PBC** is a pole adaptor to install LABI1-C100i loudspeakers in a 35mm standard pole.

**LABI1-HBC** are high-density foam pieces to let LABI1-C100i rest on the floor horizontally. Allows 0°/ 30°/ 45° inclinations relative to the horizontal surface.

**LABI1-ODCNX** is a outdoor kit to cover LABI1-C100i connections and make it ready for outdoor applications.

# VEO-SWC45

- 4K Professional presentation and conferencing switcher / HDMI® 4K professional wireless transmitter / USB-C 4K professional wireless transmitter

Advanced 4K BYOM presentation switcher combining wired and wireless connectivity for modern meeting spaces. It enables multi-format sharing, USB integration and management for conferencing systems as well as interactive sharing tools and wireless transmitters built to boost collaboration in corporate and hybrid environments.

## KEY FEATURES

- ✓ BYOM presentation switcher with wireless multi-format connectivity.
- ✓ Support for HDMI® 18Gbps 4K UHD 60Hz 4:4:4 video output as specified in HDMI®b.
- ✓ Support for standard wireless mirroring protocols like Airplay, Chromecast, Miracast, and VEOShare app for a 1080p video content sharing.
- ✓ Plug-and-play VEO-SWC45TH and VEO-SWC45TU HDMI® and USB-C wireless transmitters for up to 4K UHD video content sharing, including customizable auxiliary function buttons.
- ✓ Support for up to two USB video conferencing cameras with smart switching feature between local and wireless host devices via USB Type-A and Type-C connectors.
- ✓ Support for interactive touchback function on both wired and wireless connections for interactive screens, whiteboards, and live annotation tools.
- ✓ Dual HDMI® video outputs with dedicated screen management for mirrored screen sharing or assigning local and remote video conference participants.
- ✓ Support for up to 5 simultaneous split-screen presentations and up to 15 participants on hold.
- ✓ Support for main screen content sharing to other user's local displays.
- ✓ Customizable background and font color for the home screen page.
- ✓ Dual RJ-45 ports for independent network connections with extra security layers for an encrypted wireless transmission.
- ✓ Stereo analog audio extraction via a balanced Euroblock connector.
- ✓ HDCP 2.2 compliant.
- ✓ Control options include front panel buttons, GPI, RS-232, TCP/IP Remote Control, and WebGUI.
- ✓ Support for PoE+ function.
- ✓ Compatible with VEO-SWC44TH and VEO-SWC44TU wireless transmitters.

# VEO-SWC44

- Wireless conferencing and presentation switcher / HDMI® wireless transmitter / USB-C wireless transmitter

Wireless conferencing and presentation BYOM switcher designed for effortless collaboration, with support for wireless USB peripherals, standard sharing protocols, and transmitter accessories. A versatile solution that enhances the meeting room experience in both corporate and hybrid environments.

## KEY FEATURES

- ✓ BYOM presentation switcher with wireless multi-format connectivity.
- ✓ Support for HDMI® 18Gbps 4K UHD 60Hz 4:4:4 video output as specified in HDMI®b.
- ✓ Support for standard wireless mirroring protocols like Airplay, Chromecast, Miracast, and VEOShare app for a 1080p video content sharing.
- ✓ Plug-and-play VEO-SWC44TH and VEO-SWC44TU HDMI® and USB-C wireless transmitters for up to 1080p video content sharing.
- ✓ Support for up to two USB video conferencing cameras and wireless host devices via USB Type-A and Type-C connectors.
- ✓ Support for interactive touchback function for interactive screens, whiteboards, and live annotation tools.
- ✓ Support for up to 4 simultaneous split-screen presentations and up to 16 participants on hold.
- ✓ Customizable background and font color for the home screen page.
- ✓ Dual RJ-45 ports for independent network connections with extra security layers for an encrypted wireless transmission.
- ✓ Stereo analog audio extraction via a unbalanced 3.5mm jack connector.
- ✓ HDCP 2.2 compliant.
- ✓ Control options include front panel buttons, RS-232, TCP/IP Remote Control, and WebGUI.
- ✓ Support for PoE function.
- ✓ Compatible with VEO-SWC45TH and VEO-SWC45TU wireless transmitters.

# VEO-SWM44 / SWH44

- 4K 4x1 presentation switcher with VEOCast / HDMI® 4x1 18Gbps switcher with audio de-embedder and RS-232 CONTROL

**VEO-SWM44** is a compact 4K presentation switcher designed for flexible content sharing in modern meeting spaces. It supports both multi-format connectivity and offers smooth integration with wired video conferencing setups. With intelligent control features and audio management, it provides a streamlined experience for effective collaboration.

**VEO-SWH44** is a HDMI® switcher designed for high-quality video applications requiring smooth 4K and HDR content handling. It offers flexible source selection, audio integration features, and intuitive control options, making it a smart fit for professional AV setups where performance and ease of use matter.

## KEY FEATURES VEO-SWM44

- ✓ BYOD presentation switcher with wireless multi-format connectivity.
- ✓ Support for HDMI® and USB-C (DP Alt Mode) 18Gbps 4K 60Hz 4:4:4 video output as specified in HDMI®b.
- ✓ Support for standard wireless mirroring protocols like Airplay, Chromecast, Miracast.
- ✓ Support for Auto Switching function with input priority selection.
- ✓ Stereo analog audio extraction via a balanced Euroblock connector.
- ✓ USB HUB function with support for up to 2 USB peripheral devices (like webcams or mics) and 3 USB Hosts.
- ✓ Support for HDR10, Dolby Vision and HLG video signals.
- ✓ Support for audio formats including LPCM 2.0/5.1/7.1CH, Dolby TrueHD, Dolby Atmos, DTS-HD Master Audio, and DTS:X.
- ✓ EDID Management.
- ✓ HDCP 2.2 compliant.
- ✓ Control options include front panel buttons, CEC, RS-232, and WebGUI.
- ✓ Support for up to 60W power supply over USB-C.

## KEY FEATURES VEO-SWH44

- ✓ HDMI® signal routing switcher.
- ✓ Support for HDMI® video up to 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Support for Auto Switching function.
- ✓ Stereo unbalanced analogue and extraction via 3.5mm jack connector.
- ✓ Digital audio extraction via optical connector supporting stereo and surround formats.
- ✓ Support for HDR10, Dolby Vision and HLG video signals.
- ✓ Support for audio formats including LPCM 2.0/5.1/7.1CH, Dolby TrueHD, Dolby Atmos, DTS-HD Master Audio, and DTS:X.
- ✓ Control options include , IR remote and RS-232.
- ✓ Audio EDID management.
- ✓ HDCP 2.2 compliant.

# MARS-4 / MARS-8

- Matriz Seamless 4K HDMI con procesador avanzado de video

4x4 / 8x8 HDMI matrix with seamless switching designed for professional applications that require managing and distributing high-resolution video and audio signals in smaller-scale installations. It includes multiviewer and video wall capabilities for flexible screen layouts, along with additional

inputs for audio embedding. A versatile and easy-to-integrate solution for AV presentation and content distribution systems in control rooms, monitoring centers, auditoriums, or digital signage environments.

## KEY FEATURES

- ✓ Seamless Matrix signal distribution with HDMI inputs and outputs, supporting independent routing.
- ✓ 3 independent operation modes (Matrix, Videowall, Multiview).
- ✓ Support for HDMI video up to 4K 60Hz 4:4:4 as specified in HDMI 2.0b.
- ✓ Built-in downscaling for non-compliant 4K 60Hz 4:4:4 endpoints.
- ✓ Support for 8 user-defined presets.
- ✓ Stereo balanced analogue and digital audio extraction via Euroblock and Toslink connectors.
- ✓ Support for HDR10, HDR10+, Dolby Vision and HLG video signals.
- ✓ Support for audio formats including LPCM 2.0/5.1/7.1CH, Dolby Digital/Plus/EX, Dolby True HD, DTS, DTS-EX, DTS-96/24, DTS High Res, DTS-HD Master Audio.
- ✓ Control options include front panel with display, IR remote, RS-232, TCP/IP, Telnet, and WebGUI.
- ✓ Advanced EDID management.
- ✓ HDCP 2.2 compliant.
- ✓ IR control extension.
- ✓ On desk and Rack mount installation options.

# MAIA-16

• 16x16 4K 18Gbps HDMI Matrix

16x16 HDMI matrix designed for professional environments that require flexible routing of 4K video and audio signals. Especially suited for installations with a high number of sources and local displays that require organized and efficient content distribution. It combines intuitive control and management to simplify day-to-day operation in complex AV systems. It provides a reliable solution for dynamic presentation and distribution needs.

## KEY FEATURES

- ✓ Matrix signal distribution with HDMI inputs and outputs, supporting independent routing.
- ✓ Support for HDMI video up to 4K 60Hz 4:4:4 as specified in HDMI 2.0b.
- ✓ Built-in downscaling for non-compliant 4K 60Hz 4:4:4 endpoints.
- ✓ Support for 8 user-defined presets.
- ✓ Stereo balanced analogue audio extraction via Euroblock connectors.
- ✓ Support for HDR10, HDR10+, Dolby Vision and HLG video signals.
- ✓ Support for ARC and audio formats including LPCM 2.0/5.1/7.1CH, Dolby TrueHD, Dolby Atmos, DTS-HD Master Audio, and DTS:X.
- ✓ Control options include front panel with display, IR remote, RS-232, TCP/IP, and WebGUI.
- ✓ Advanced EDID management.
- ✓ HDCP 2.2 compliant.
- ✓ IR control extension.
- ✓ On desk and Rack mount installation options.

# VEO-MXH44D

• HDMI® 4X4 18Gbps matrix with audio de-embedders and display

INTEGRABLE

4x4 HDMI® matrix designed for professional environments that require flexible routing of 4K video and audio signals. It combines intuitive control and management to simplify day-to-day operation in complex AV setups. It offers a reliable solution for dynamic presentation and distribution needs.

## KEY FEATURES

- ✓ Matrix signal distribution with HDMI® inputs and outputs, supporting independent routing.
- ✓ Support for HDMI® video up to 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Built-in downscaling for non-compliant 4K 60Hz 4:4:4 endpoints.
- ✓ Support for 8 user-defined presets.
- ✓ Stereo unbalanced analogue and extraction via Euroblock connectors.
- ✓ Digital audio extraction via coaxial connector supporting stereo and surround formats.
- ✓ Support for HDR10, Dolby Vision and HLG video signals.
- ✓ Support for audio formats including LPCM 2.0/5.1/7.1CH, Dolby TrueHD, Dolby Atmos, DTS-HD Master Audio, and DTS:X.
- ✓ Control options include front panel with display, IR remote, RS-232, TCP/IP, and WebGUI.
- ✓ Advanced EDID management.
- ✓ HDCP 2.2 compliant.
- ✓ IR control extension.

# VEO-MXH88D

• HDMI® 8X8 18Gbps matrix with audio de-embedders and display

8x8 HDMI® matrix designed for professional AV environments that demand efficient routing of 4K video and audio signals. With flexible input/output handling and intuitive control options, it streamlines complex signal distribution tasks. Ideal for installations where high-performance switching and smart configuration are key to smooth operation.

### KEY FEATURES

- ✓ Matrix signal distribution with HDMI® inputs and outputs, supporting independent routing.
- ✓ Support for HDMI® video up to 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Built-in downscaling for non-compliant 4K 60Hz 4:4:4 endpoints.
- ✓ Support for 8 user-defined presets.
- ✓ Stereo unbalanced analogue insertion and extraction via Euroblock connectors.
- ✓ Digital audio extraction via coaxial connector supporting stereo and surround formats.
- ✓ Support for HDR10, Dolby Vision and HLG video signals.
- ✓ Support for audio formats including LPCM 2.0/5.1/7.1CH, Dolby TrueHD, Dolby Atmos, DTS-HD Master Audio, and DTS:X.
- ✓ Control options include front panel with display, IR remote, RS-232, TCP/IP, and WebGUI.
- ✓ Advanced EDID management.
- ✓ HDCP 2.2 compliant.
- ✓ IR control extension.

# VEO-MXH48T

• 4K HDBaseT and HDMI® 8x8 matrix

8x8 HDBaseT and HDMI® matrix designed for professional AV installations requiring flexible 4K signal distribution. It offers long-distance video extension, integrated audio management, and user-friendly configuration. With advanced routing capabilities and support for power over cable, it's a smart and efficient solution for complex video and audio environments.

### KEY FEATURES

- ✓ Matrix signal distribution with HDMI® inputs and mirrored HDBaseT/HDMI® outputs, supporting independent routing.
- ✓ Support for HDMI® and HDBaseT (with Color Space Conversion technology) video up to 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Transmission distance for 4K/60Hz up to 40 meters and 1080p/60Hz up to 70 meters.
- ✓ Independent audio matrix.
- ✓ Built-in downscaling for non-compliant 4K 60Hz 4:4:4 endpoints.
- ✓ Support for 8 user-defined presets.
- ✓ Stereo unbalanced analogue insertion and extraction via Euroblock connectors.
- ✓ Digital audio extraction via coaxial connector supporting stereo and surround formats.
- ✓ Support for HDR10, Dolby Vision and HLG video signals.
- ✓ Support for audio formats including LPCM 2.0/5.1/7.1CH, Dolby TrueHD, Dolby Atmos, DTS-HD Master Audio, and DTS:X.
- ✓ Control options include front panel with display, IR remote, RS-232, TCP/IP and WebGUI.
- ✓ Advanced EDID management.
- ✓ HDCP 2.2 compliant.
- ✓ Bidirectional IR control extension.
- ✓ Support for PoH function.

# VEO-SPH4 Series

• 1x8 HDMI® splitter / 1x4 HDMI® splitter / 1x2 HDMI® splitter

HDMI® splitter's product line featuring 2, 4 and 8 outputs models, designed for distributing high-quality 4K and HDR content to multiple displays with industrial leading quality, it offers a reliable and straightforward solution for professional AV signal distribution.

### KEY FEATURES

- ✓ Signal distribution for 2, 4 and 8 HDMI® outputs.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Support for HDR10, Dolby Vision, and HLG video signals.
- ✓ Support for audio formats LPCM 2.0/5.1/7.1, Dolby Digital, DTS 5.1, Dolby TrueHD, DTS-HD Master Audio.
- ✓ EDID Management.
- ✓ HDCP 2.2 compliant.
- ✓ IR Control Extension.

# VEO-SPS4 Series

• HDMI® Splitter and Extender

HDMI® extender splitter product line featuring 2, 4 and 8 models. It allows high-quality 4K signals to be distributed and extended to remote displays over a single cable, with flexible options like HDMI® loop-out and control pass-through. An ideal solution for AV installations requiring reliable long-distance signal distribution and simplified integration.

### KEY FEATURES

- ✓ Signal distribution and extension for 2, 4 and 8 outputs over a single Cat 5e or higher cable.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Transmission distance for 4K/60Hz up to 35 meters, 4K/30Hz up to 50m and 1080p /60Hz up to 60m.
- ✓ Stereo unbalanced audio extraction via Euroblock connectors.
- ✓ Includes an HDMI® Loop Out and two RJ45 extension outputs.
- ✓ Support for HDR10, HDR10+, Dolby Vision, and HLG video signals.
- ✓ Support for audio formats LPCM 2.0/5.1/7.1, Dolby Digital/ Plus/EX, Dolby True HD, DTS, DTS-EX, DTS-96/24, DTS High Res, DTS-HD Master Audio, DSD.
- ✓ EDID Management.
- ✓ HDCP 2.2 compliant.
- ✓ IR control extension.
- ✓ Support for RS-232 remote control.
- ✓ PoC function for the included receivers.

# THIA-2 Series

• JPEG200 4K 30Hz Over IP  
Video Transmitter / Receiver

THIA-2T

THIA-2R

4K 30 Hz Video-over-IP system based on JPEG2000 compression that enables secure, low-latency distribution of HDMI signals. Designed for easy integration into professional AV networks, it provides advanced control capabilities through its dedicated controller and facilitates interoperability with various video systems in content distribution and management environments.

## KEY FEATURES

- ✓ Video over IP Unicast and Multicast distribution system over 1Gb managed networks.
- ✓ Support for JPEG2000 video codec with 1-2 frame latency.
- ✓ Support for HDMI 18Gbps 4K 60Hz 4:4:4 as specified in HDMI 2.0b Input.
- ✓ Support for HDMI 18Gbps 4K 30Hz 4:4:4 as specified in HDMI 2.0b Output.
- ✓ Transmission distance up to 100 meters over Cat 6 or higher cable.
- ✓ Support for Main and Sub stream for video preview.
- ✓ Support for video wall compositing and management up to 9 x 9 setups (via VEO-XCTRL4D with THIA-2C FW).
- ✓ Support for HDR10, HDR10+, Dolby Vision.
- ✓ Support for audio formats LPCM 2.0/5.1/7.1CH, Dolby Digital/Plus/EX, Dolby True HD, Dolby Atmos, DTS, DTS-96/24, DTS-EX DSD, DTS High Res, DTS-HD Master, DTS:X.
- ✓ Advanced EDID Management (via controller).
- ✓ HDCP 2.2 compliant.
- ✓ Stereo unbalanced analogue audio insertion and extraction via Euroblock connectors.
- ✓ Includes HDMI Loop Out on THIA-2T.
- ✓ USB 2.0/KVM, CEC, RS-232, IR pass-through.
- ✓ Control options via THIA-2C dedicated firmware on VEO-XCTRL4D include, RS-232, Telnet, SSH control, and WebGUI.
- ✓ Support for PoE function.

# THIA

• Simplicity meets performance in AV over IP distribution.

• Compact and efficient networked video with industry-leading quality.

18 Gbps

# VEO-4D Series

• JPEG2000 4K Over IP video with Dante

VEO-XTI4D

VEO-XRI4D

VEO-XCTRL4D

4K Video-over-IP JPEG2000 system that enables secure, low-latency HDMI® distribution with industry-leading image quality. It offers a versatile set of features tailored for professional networked environment, Dante AV-A compliance, including advanced control options with VEO-XCTRL4D controller and integration for professional video systems.

## KEY FEATURES

- ✓ Video over IP Unicast and Multicast distribution system over 1Gb managed networks.
- ✓ Dante AV-A ready.
- ✓ Support for JPEG2000 video codec with 1-2 frame latency.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Transmission distance up to 100 meters over Cat 6 or higher cable.
- ✓ Support for Dante and AES67 two channel In/Out audio.
- ✓ Support for Main and Sub stream for video preview.
- ✓ Support for video wall compositing and management up to 9 x 9 setups (via VEO-XCTRL4D).
- ✓ Support for HDR10, HDR10+, Dolby Vision.
- ✓ Support for audio formats LPCM 2.0/5.1/7.1CH, Dolby Digital/Plus/EX, Dolby True HD, Dolby Atmos, DTS, DTS-96/24, DTS-EX DSD, DTS High Res, DTS-HD Master, DTS:X, AES67.
- ✓ Advanced EDID Management (via VEO-XCTRL4D).
- ✓ HDCP 2.2 compliant.
- ✓ Dual RJ45 network ports support joint or independent JPEG2000 and Dante® distribution.
- ✓ Stereo unbalanced analogue and digital audio insertion and extraction via Euroblock and optical connectors.
- ✓ Includes HDMI® Loop Out on VEO-XTI4D.
- ✓ USB 2.0/KVM, CEC, RS-232, IR pass-through.
- ✓ Control options include front panel buttons, RS-232, Telnet, SSH control, and WebGUI.
- ✓ Support for PoE function.

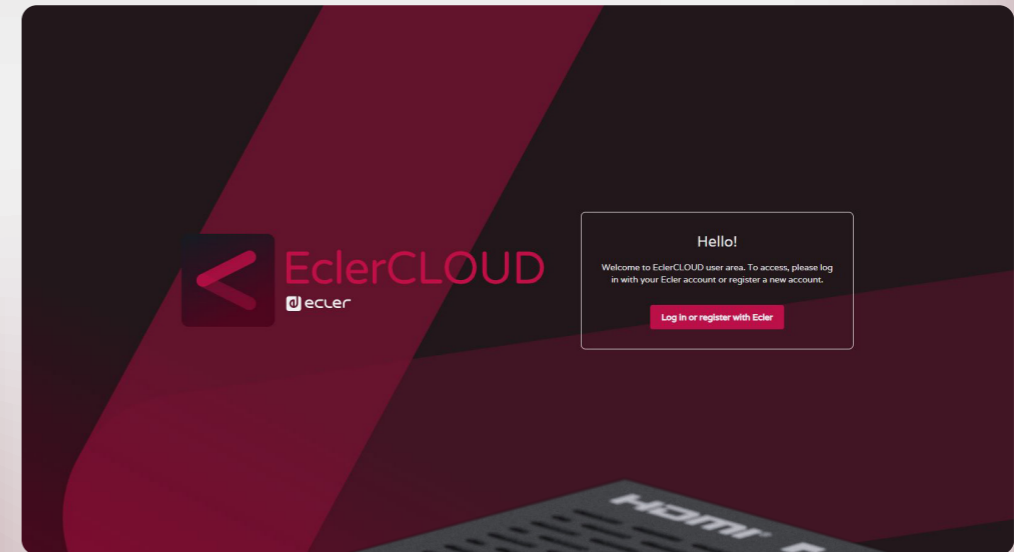

# EclerCLOUD

With the arrival of EclerCLOUD, video products enter a new phase in which the level of control reaches new industry standards.

The creation of a remote audio and video control environment represents a key added value. Both monitoring from the main dashboard and “deep dive” functionalities will be available, providing users with everything they need to enhance control and optimize their installations.

The first products to be compatible with EclerCLOUD will be the HDMI distributors from the 1CG2 and 4D series.

# VEO-1CG2 Series

• H.265 Full HD over IP video extender

INTEGRABLE

Video-over-IP H.265 system that allows for a low bandwidth HDMI® distribution with comprehensive performance and quality. It offers a versatile set of features tailored for professional networked environment, including advanced control options with VEO-XCTRLG2 controller and integration for professional video systems.

### KEY FEATURES

- ✓ Video over IP Unicast and Multicast distribution system over 1Gb managed networks.
- ✓ Support for H.264/H.265 video codec with 100ms average latency.
- ✓ Support for HDMI® 10.2Gbps 1920 x 1200 60Hz 4:4:4 as specified in HDMI® 1.4.
- ✓ Transmission distance up to 100 meters over Cat 5e or higher cable.
- ✓ Support for Main and Sub stream for video preview.
- ✓ Support for video wall compositing and management up to 9 x 9 setups (via VEO-XCTRLG2).
- ✓ Support for audio formats LPCM 2.0.
- ✓ Advanced EDID Management (via VEO-XCTRLG2).
- ✓ HDCP 1.4 compliant.
- ✓ Stereo unbalanced analogue audio insertion and extraction via Euroblock connectors.
- ✓ Control options include front panel buttons, RS-232, Telnet, SSH control, and WebGUI.
- ✓ Support for PoE function.

# VEO-2L Series

• Low latency 4k over IP video extenders with KVM and videowall features

COMPATIBLE

4K Video-over-IP system that allows for low-latency HDMI® distribution aimed for cost-effective professional networked environment as well as integration for professional video systems.

### KEY FEATURES

- ✓ Video over IP Unicast and Multicast distribution system over 1Gb managed networks.
- ✓ Support for 1-2 frame latency.
- ✓ Support for HDMI® 10.2Gbps 4K 30Hz 4:4:4 input as specified in HDMI® 1.4 (built-in downscaling for 4K 60Hz as specified in HDMI®).
- ✓ Transmission distance up to 100 meters over Cat 5e or higher cable.
- ✓ Support for video wall compositing and management up to 8 x 8 setups.
- ✓ Support for audio formats LPCM 2.0/5.1/7.1CH, Dolby Digital/Plus/EX, Dolby True HD, Dolby Atmos, DTS, DTS-96/24, DTS-EX DSD, DTS High Res, DTS-HD Master, DTS:X, AES67.
- ✓ Advanced EDID Management.
- ✓ HDCP 2.2 compliant.
- ✓ Dual RJ45 and SFP Fiber Optic network ports.
- ✓ Stereo unbalanced analogue and digital audio insertion and extraction via 3.5mm jack and optical connectors.
- ✓ USB 2.0/KVM, RS-232, IR pass-through.
- ✓ Control options include front panel buttons, RS-232, TCP/IP, WebGUI and EclerNet Manager.
- ✓ Bidirectional IR control extension.
- ✓ Support for PoE function.

## VEO-XPT44A / XPT412

- HDMI® HDBaseT extender Kit 18Gbps with audio extraction / 4K HDBaseT extender Kit 10.2 Gbps

VEO-XPT44A

VEO-XPT412

A compact HDBaseT extension kit designed for reliable 4K signal transmission over a single cable. It offers practical features like HDMI® loop output, audio extraction, and flexible power and control extension. Ideal for professional AV setups, it ensures easy integration and efficient distribution of both AV and control signals.

## KEY FEATURES VEO-XPT44A

- ✓ Transmitter and receiver set for HDBaseT signal extension over a single Cat 5e or higher cable.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 (with Color Space Conversion technology) as specified in HDMI®b.
- ✓ Transmission distance for 4K/60Hz up to 40 meters and 1080p/60Hz up to 70 meters.
- ✓ Includes an HDMI® Loop Out in Transmitter.
- ✓ Stereo unbalanced audio extraction via Euroblock connectors on both the transmitter and receiver.
- ✓ Support for HDR10, HDR10+, Dolby Vision, and HLG video signals.
- ✓ Support for audio formats LPCM 2.0/2.1/5.1/6.1/7.1, Dolby Digital, Dolby TrueHD, Dolby Digital Plus(DD+), DTS-ES, DTS HD Master, DTS HD-HRA, DTS-X.
- ✓ HDCP 2.2 compliant.
- ✓ Bidirectional IR control extension.
- ✓ Bidirectional PoH function.

A professional HDBaseT extension kit that delivers high-quality 4K signal transmission over long distances. Designed for easy integration, it includes audio outputs and flexible power options. Its compact and reliable design makes it ideal for professional AV installations requiring both video and control signal extension.

## KEY FEATURES VEO-XPT412

- ✓ Transmitter and receiver set for HDBaseT signal extension over a single Cat 5e or higher cable.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 (with Color Space Conversion technology) as specified in HDMI®b.
- ✓ Transmission distance for 4K/60Hz up to 120 meters and 1080p/60Hz up to 150 meters.
- ✓ Stereo unbalanced audio extraction via Euroblock connectors on both the transmitter and receiver.
- ✓ Support for HDR10, HDR10+, Dolby Vision, and HLG video signals.
- ✓ Support for audio formats LPCM 2.0/2.1/5.1/6.1/7.1, Dolby Digital, Dolby TrueHD, Dolby Digital Plus(DD+), DTS-ES, DTS HD Master, DTS HD-HRA, DTS-X.
- ✓ HDCP 2.2 compliant.
- ✓ Bidirectional IR control extension.
- ✓ Bidirectional PoH function.

## VEO-XTT44 / VEO-XRT44

- Selector / transmitter panel 4K HDBaseT 18 Gbps

VEO-XTT44

VEO-XRT44

Professional HDBaseT transmitter and receiver designed for high-performance distribution in demanding AV environments. It offers advanced video and audio handling, flexible power and control features, ideal for ensuring smooth integration and reliable signal extension in professional setup.

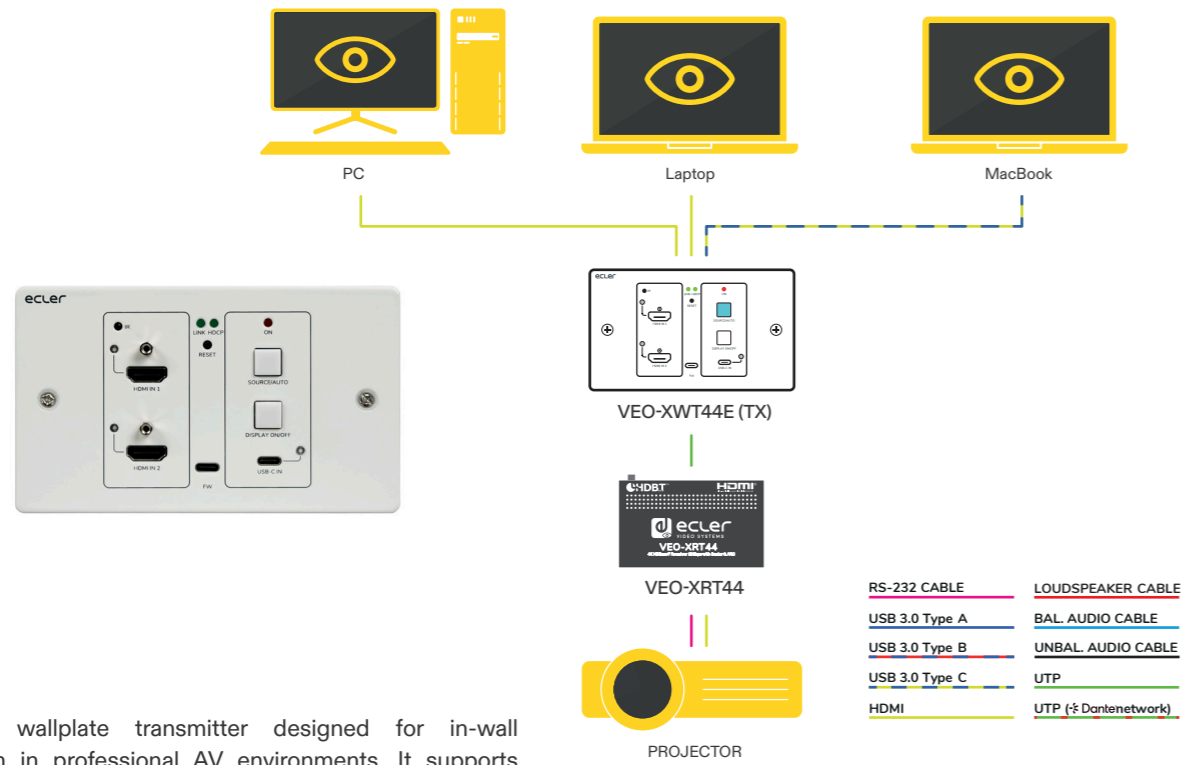

## KEY FEATURES

- ✓ HDBaseT receiver & transmitter for signal extension over a single Cat 5e or higher cable.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Transmission distance for 4K/60Hz up to 40 meters and 1080p/60Hz up to 70 meters.
- ✓ Built-in upscaling from 1080p to 4K signals.
- ✓ Digital audio extraction via optical connector supporting stereo and surround formats.
- ✓ Three audio distribution modes when paired with VEO-XTR44.
- ✓ Support for HDR10 and HLG video signals.
- ✓ Support for ARC and audio formats LPCM 2.0/2.1/5.1/6.1/7.1, Dolby Digital, Dolby TrueHD, Dolby Digital Plus(DD+), DTS-ES, DTS HD Master, DTS HD-HRA, DTS-X.
- ✓ Built-in 4K/1080P test pattern.
- ✓ EDID Management.
- ✓ HDCP 2.2 compliant.
- ✓ CEC, RS-232, IR pass-through.
- ✓ Bidirectional PoH function.

# VEO-XWTT44E

• Selector / transmitter panel 4K HDBaseT 18 Gbps

HDBaseT wallplate transmitter designed for in-wall integration in professional AV environments. It supports multiple input sources with flexible switching options and enables long-distance transmission of video, audio, and control signals over a single cable. It's a clean and efficient solution for collaborative spaces.

## KEY FEATURES

- ✓ HDBaseT wallplate switcher and transmitter for signal extension over a single Cat 5e or higher cable.
- ✓ Support for HDMI® and USB-C (DP alt mode) 18Gbps 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Transmission distance for 4K/60Hz up to 40 meters and 1080p/60Hz up to 70 meters.
- ✓ Support for Auto Switching function.
- ✓ Support for HDR10 and HLG video signals.
- ✓ Support for audio formats LPCM 2.0/2.1/5.1/6.1/7.1, Dolby Digital, Dolby TrueHD, Dolby Digital Plus(DD+), DTS-ES, DTS HD Master, DTS HD-HRA, DTS-X.
- ✓ Advanced EDID Management.
- ✓ HDCP 2.2 compliant.
- ✓ CEC, RS-232, IR pass-through.
- ✓ Control options include front panel buttons, IR learning feature for DISPLAY ON/OFF button and RS-232.
- ✓ Bidirectional PoH function.
- ✓ Support for auxiliary 12V DC power supply.

# VEO-XPS43 / VEO-XPS47

• 4K Single Cat.6 extender kit

Entry-level HDMI® extender kit designed for zero-latency 4K and 1080p video transmission over a single Cat 6 cable. It offers essential features like EDID management, control pass-through, making it a practical and affordable choice for straightforward AV extension setups.

An advanced HDMI® extender kit designed to transmit 4K video signals with zero latency over long distances. With audio extraction on both ends, EDID management, and bidirectional power and control features, it offers a simple, reliable, and cost-effective solution for professional AV extension needs.

## KEY FEATURES VEO-XPS43

- ✓ Transmitter and receiver set for signal extension over a single Cat 5e or higher cable.
- ✓ Support for HDMI® 10.2Gbps 4K 30Hz 4:4:4 as specified in HDMI® 1.4b.
- ✓ Transmission distance for 4K/30Hz up to 30 meters and 1080p/60Hz up to 60 meters.
- ✓ Support for audio formats LPCM 2.0/5.1/7.1, Dolby True HD, DTS HD Master.
- ✓ EDID management.
- ✓ HDCP 2.2 compliant.
- ✓ IR control extension.
- ✓ Support for PoC function.

## KEY FEATURES VEO-XPS47

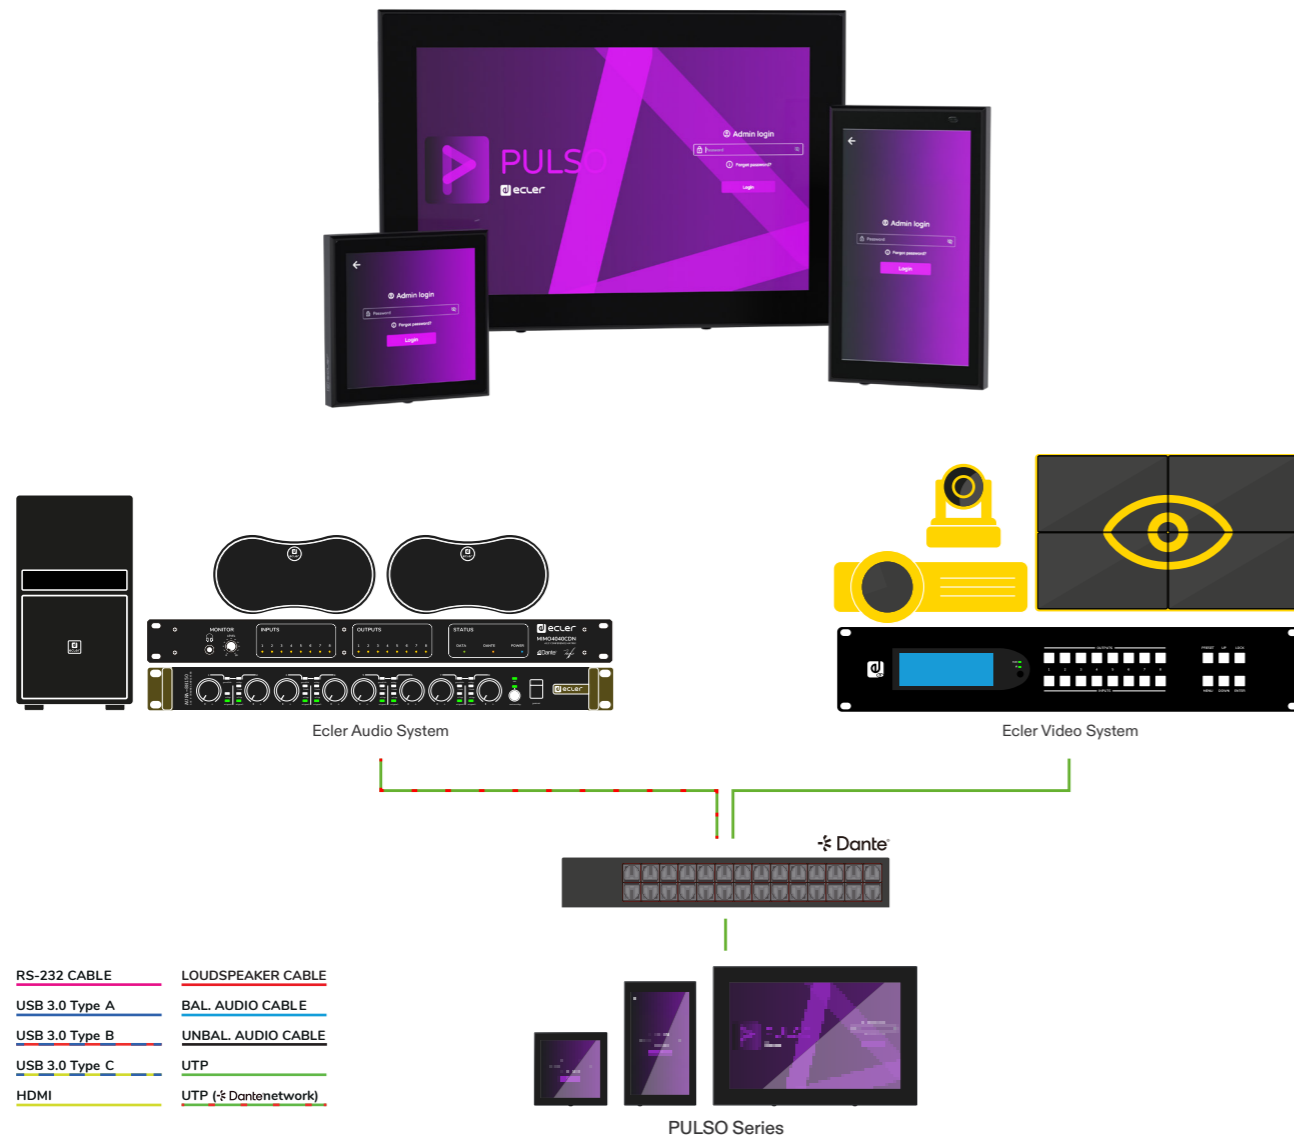

- ✓ Transmitter and receiver set for signal extension over a single Cat 5e or higher cable.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 as specified in HDMI®b.
- ✓ Transmission distance for 4K/50Hz up to 70 meters and 4K/60Hz up to 30 meters.
- ✓ Stereo unbalanced audio extraction via Euroblock connectors on both the transmitter and receiver.
- ✓ Support for HDR10, HDR10+, Dolby Vision, and HLG.
- ✓ Support for audio formats LPCM 2.0/5.1/7.1, Dolby True HD, DTS HD Master.
- ✓ EDID management.
- ✓ HDCP 2.2 compliant.
- ✓ Bidirectional IR control extension.
- ✓ Bidirectional PoC function.

# PULSO Series

• User control panels (ucp) touch screen control device

COMPATIBLE

RS-232 CABLE  
 USB 3.0 Type A  
 USB 3.0 Type B  
 USB 3.0 Type C  
 HDMI

LOUDSPEAKER CABLE  
 BAL. AUDIO CABLE  
 UNBAL. AUDIO CABLE  
 UTP  
 UTP (± Dantenetwork)

**PULSO series** of digital touch control panels is compatible with all the VEO Series networked products and all the EclerNet native products. When including a PULSO in a VEO Series or EclerNet installation it is not necessary to use a computer to manage connected devices. Each PULSO unit could be configured to work as a single zone control panel or as a global multi-zone controller. It allows executing customized User Control Panels that are able to control volume, sound source selection, video sources selection, presets recovery, communication via TCP/UDP with external devices, etc. Is fully compatible as a UCP server for third party devices (iOS®, Android®, Windows®, etc.).

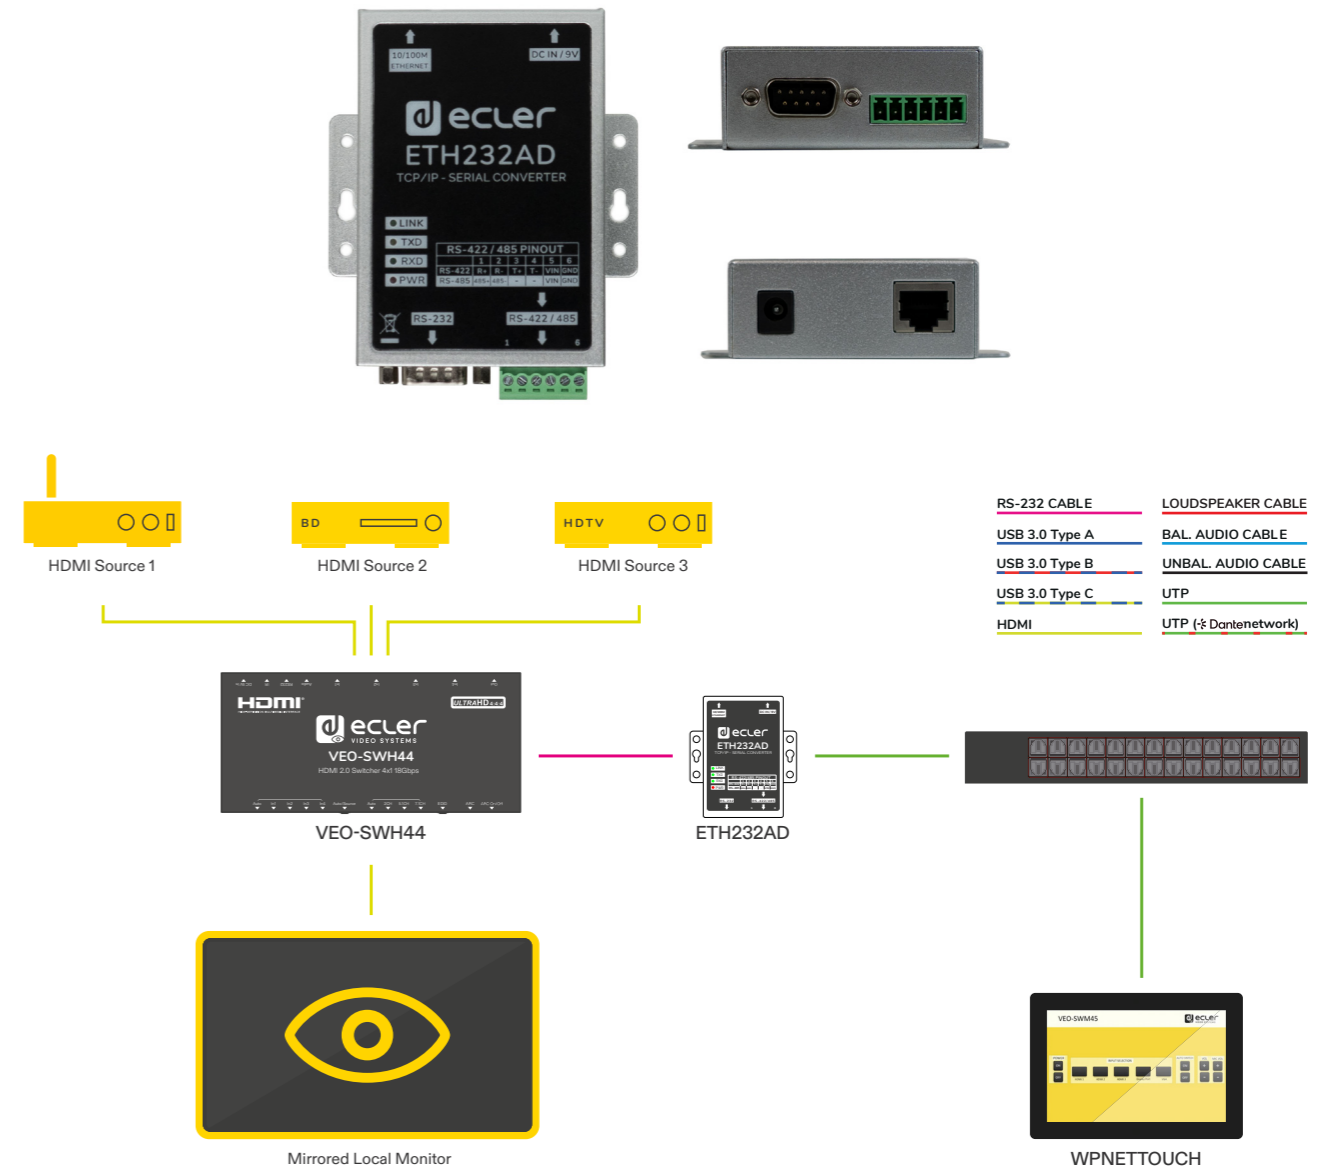

**ECLER VIDEO EQUIPMENT CONTROL:** EclerNet Manager allows for the creation of UCP's to control EclerNet native devices, along with other equipment fitted with third party control protocol (TCP/IP, UDP, RS-232 through Ethernet adaptor to RS-232). The UCP can then control Ecler Audio, VEO series Ecler Video and other third party apparatuses by using WPNETTOUCH unit as shown in the image, Ecler UCP APP on Android®/iOS® devices or by using a web browser.

## KEY FEATURES

- ✓ 10" Capacitive Touch Panel for fully customized control surfaces.
- ✓ EclerNet, VEO Series and third party devices remote control compatible.
- ✓ UCP client/server.
- ✓ POE and local power supply (multi-plug universal PSU included).
- ✓ VESA75 standard mounting accessory included.

# ETH232AD

• Ethernet-RS232 interface

RS-232 CABLE  
 USB 3.0 Type A  
 USB 3.0 Type B  
 USB 3.0 Type C  
 HDMI

LOUDSPEAKER CABLE  
 BAL. AUDIO CABLE  
 UNBAL. AUDIO CABLE  
 UTP  
 UTP (± Dantenetwork)

**ETH232AD** is Ecler's new Ethernet-RS232 interface that allows to control devices featuring serial control, through the EclerNet platform using for example a PULSO or the multiple control options offered by the platform, such as control via WEB or through an Android®, iOS® devices through the UCP Ecler app.

With EclerNet Manager it's possible to create customized graphical interfaces to send commands to the ETH232AD, which will be responsible for the translation of the network protocol to the RS-232 protocol.

This way, using a PULSO/WPNETTOUCH you can control audio devices such as a CA series amplifier, video devices such as a VEO series selector or any third party device with RS-232 or RS-485 control.

# VEO-AXS4P

• HDMI® Audio De-Embedder 18Gbps

VEO-AXS4P

**VEO-AXS4P** is a professional HDMI® audio dembedder designed to separate audio from 4K video signals, including both analog and digital outputs for flexible integration into a variety of AV systems. Ideal for installations that require high-quality audio extraction without compromising video performance.

## KEY FEATURES

- ✓ Audio extraction with video bypass.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 as specified in HDMI® 2.0b.
- ✓ Supports sample rates up to 192 kHz and bit depth up to 24-bit.
- ✓ Stereo analogue extraction via unbalanced coaxial RCA and balanced Euroblock connectors.
- ✓ Digital audio extraction via coaxial connector supporting stereo and surround formats.
- ✓ Support for HDR10, Dolby Vision, and HLG.
- ✓ Support for audio formats LPCM 2.0/2.1/5.1/6.1/7.1, Dolby Digital, Dolby TrueHD, Dolby Digital Plus(DD+), DTS-ES, DTS HD Master, DTS HD-HRA, DTS-X.
- ✓ CEC pass-through.
- ✓ EDID management.
- ✓ HDCP 2.2 compliant.

# VEO-AEXS4 / VEO-DACS4

• HDMI® Audio De-Embedder and Embedder 18Gbps / DAC Converter and ARC Extractor

VEO-AEXS4

VEO-DACS4

A versatile HDMI® audio dembedder and embedder that allows you to either extract audio from 4K HDMI® streams or embed a stereo analog signal into them. It offers flexible audio connection options and selectable operating modes, making it a practical solution for AV systems requiring audio routing control.

A flexible audio converter designed to integrate digital audio sources into analog audio systems. It supports multiple input formats and provides easy mode selection, making it a practical solution for adapting audio signals in a variety of AV setups.

## KEY FEATURES VEO-AEXS4

- ✓ Audio extraction and insertion with video bypass.
- ✓ Support for HDMI® 18Gbps 4K 60Hz 4:4:4 as specified in HDMI® 2.0b.
- ✓ Supports sample rates up to 192 kHz and bit depth up to 24-bit.
- ✓ Stereo unbalanced analogue insertion and extraction via Euroblock connectors.
- ✓ Digital audio extraction via coaxial connector supporting stereo and surround formats.
- ✓ Support for HDR10, Dolby Vision, and HLG.
- ✓ Support for audio formats LPCM 2.0/2.1/5.1/6.1/7.1, Dolby Digital, Dolby TrueHD, Dolby Digital Plus(DD+), DTS-ES, DTS HD Master, DTS HD-HRA, DTS-X.
- ✓ EDID management.
- ✓ HDCP 2.2 compliant.

## KEY FEATURES VEO-DACS4

- ✓ Audio multi format conversion.
- ✓ Supports sample rates up to 192 kHz and bit depth up to 24-bit.
- ✓ Stereo unbalanced analogue extraction via coaxial RCA connectors.
- ✓ Digital audio insertion and extraction via coaxial, optical and HDMI® (ARC) connector supporting stereo and surround formats.
- ✓ Support for audio formats LPCM 2.0/2.1/5.1/6.1/7.1, Dolby Digital, Dolby TrueHD, Dolby Digital Plus(DD+), DTS-ES, DTS HD Master, DTS HD-HRA, DTS-X.

# VIDEO ACCESSORIES

VEO-XCH415-430-450-470

Premium High Speed HDMI® Cable with Ethernet series, available in lengths from 0.5 to 10 meters. Designed for professional installations, they ensure stable and high-performance HDMI® connections of 18Gbps, making them ideal for reliable AV signal transmission.

KEY FEATURES

- ✓ Hybrid active optical PVC cable with fiber and copper wire .
- ✓ Support for unidirectional HDMI® 48Gbps 8K 60Hz 4:4:4 as specified in HDMI® 2.1.
- ✓ Transmission distance up to 70 meters.
- ✓ Support for HDR, VRR, QMS, QFT, ALLM and eARC.

VEO-CH200-201-202-203-205-208-210

Premium High Speed HDMI® Cable with Ethernet series, available in lengths from 0.5 to 10 meters. Designed for professional installations, they ensure stable and high-performance HDMI® connections of 18Gbps, making them ideal for reliable AV signal transmission.

KEY FEATURES

- ✓ Maximum supported HDMI® clock: 600 MHz.
- ✓ Supported TMDS data rate: 18 Gbit/s.
- ✓ Maximum supported color depth: 48 bit/px.
- ✓ Maximum supported resolution: 4096x2160p60.
- ✓ HEAC (HDMI® Ethernet Audio Control).
- ✓ Supports ARC and CEC.

VEO-RACK19

3U rack mount shelf designed for the VEO-1CG2 series, offering a practical and professional solution for organized installations. It supports both front and rear mounting, and includes all necessary accessories to securely install up to 12 transmitter or receiver units, making it ideal for structured AV system integration.

KEY FEATURES

- ✓ 3U / 19" Rack mount shelf for VEO series.
- ✓ Mounting and ventilation grid design.
- ✓ Includes mounting accessories.

# VIDEO ACCESSORIES

VEO-RK1CG2

3U Rack mount shelf for all VEO series 3U rack mount shelf designed for the VEO series, offering a practical and professional solution for organized installations and for structured AV system integration. It also includes three blank filler plates(VEO-RK1CG2P) to ensure a neat and organized appearance when not all slots are in use.

KEY FEATURES

- ✓ 3U / 19" Rack mount shelf for VEO-1CG2 series.
- ✓ Supports both front and rear orientations.
- ✓ Includes mounting ears and screws to fit for up to 12 VEO-XT11CG2 / VEO-XR11CG2. It also includes 3 blank filler plates.

THIA-RK

THIA-RK rack mount shelf is specifically designed for the THIA series, targeting the professional video market. Its 6U/19" frame supports both front and rear orientations for the mounted devices, enhancing its versatility across different setups. This shelf comes equipped with brackets and screws, enabling the installation of up to 10 THIA series units. It also includes three blank filler plates (THIA-RKP) to ensure a neat and organized appearance when not all slots are in use.

KEY FEATURES

- ✓ 6U / 19" Rack mount shelf for THIA series.
- ✓ Supports both front and rear orientations.
- ✓ Includes mounting ears and screws to fit for up to 10 THIA. It also includes 3 blank filler plates.

SS 8 SON  
Ecler's first product

1965

TV tone filter +  
turntable needles

1969

A4  
first mixer

1971

Lighting and sound system for a  
shopping center

1975

AC4  
first mixer for nightclubs

1977

Launch of the  
MAC 4-2T

1982

PAC 400  
first amplifier

1983

SCLAT 10  
mixer for large nightclubs

1985

PAM 6100  
the most powerful amplifier  
ever manufactured

2002

PA system based on SPM 1000  
technology

1998

MPA4-80  
first multichannel amplifier

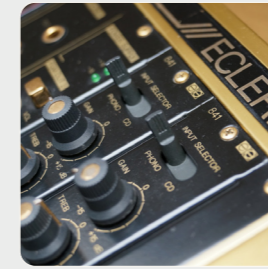

PAM2000 / 2600  
3rd generation of SPM ampli-  
fiers

1996

KOMPAK Series 3  
SPM amplifiers

1993

SCLAT GOLD  
limited series

1989

PAM500 / PAM800  
launch of SPM technology

1988

AMIC LAB  
first processing software

AMBIT Series  
first boxes for BGM

2005

The first **all the power**  
**all the time** digital amplifier

Ampli light DT series

2024

AC6  
high-performance mixer

2007

EVO 5  
digital mixer with two awards for Best  
Mixer of the Year (DJ Mag)

2009

AUDEO Series  
designed by Giugiaro

2012

MIMO88 / EclerNet  
digital matrix is integrated  
into the platform

2011

Release of the first version  
of EclerPLEX software

2026

Launch of APPS

2025

PULSO Series  
digital remote wall panels

2023

NIMBO Series  
high performance speaker

2024

VIDA Series  
digital amplifier with  
VersaPower technology

2023

ECLER DJ  
returns with the new WARM2  
mixer

2022

IC PLUS Series  
high-performance  
in-ceiling speakers
