General remarks:

The test results presented in this report relate only to the object tested.

The results contained in this report reflect the results for this particular model and item identifier. It is the responsibility of the manufacturer to ensure that all production models meet the intent of the requirements detailed within this report.

Statements of conformity – Decision rule applied: “Simple Acceptance” rule, also called “Shared Risk approach” of ILAC-G8:09/2019 guide.

The statements of conformity are reported as:

P (Pass) – When the measured values are within the specified limits

F (Fail) – When one or more measured values are outside the specified limits

Uncertainty of measurement is not included within the results.

U_{lab} < U_{cispr}

This report shall not be reproduced, except in full, without the written approval of the Issuing testing laboratory.

Throughout this report a comma is used as the decimal separator

General product information:

Test results can be extended to the following models, equipped with same EMC critical components, but with fewer components on the PCBs:

- VIVO-X8
- BIO-X8
- VIVO-XØD32
